

**T. R. IN HUMOROUS MOOD ON STAND IN
STEEL TRUST HEARING.**

According to records kept at the local weather observatory, slightly more than seven inches of snow has covered the greater portion of Allen county. The flakes started to fall about 8 o'clock Monday evening, and with a strong wind blowing from the east, continued to fall during the entire day.

The snow is of the light variety and is not doing any damage. By operating its snow ploughs during the day the Fort Wayne and Northern Indiana Traction company was able to keep its tracks cleared in the city. It is reported that the snow is coming across the tracks from the interurban lines into the city from the south and west, but no trouble in delayed traffic has been reported from any quarter.

The storm is by far the heaviest of the winter and the snow will continue during the night, according to W. S. Palmer, local forecaster.

in this state. This is the conclusion of a legislative committee which today re-

a remarkably pretty white gown. After the club had sung its next selection

a change of costume?"

Here's a new slant on the best known face in America. It's a snapshot of Theodore telling the steel trust committee about his treatment of the steel trust when he was president. Notice the quizzical glint in his eyes and the barely humorous twist of the cheek muscles.

People who have seen hundreds of pictures of Roosevelt say they never saw one quite so "human" as this.

WILL RECEIVE BELATED VOTE

Missing Arizona Messenger on His Way With Electoral Count.

IS FAR BEHIND TIME

Washington, Jan. 25.—W. T. Webb, the missing Arizona messenger appointed to bring the electoral returns of Arizona to Washington today telegraphed to Senator Ashurst from New York, saying he was on his way to Washington. Under the law, yesterday was the last day in which the returns could be filed. The statute is, however, elastic and Mr. Ashurst has arranged for the reception of the vote when Mr. Webb presents it. Arizona cast her first electoral vote for Wilson and Marshall. If it had been lost it would have made no difference in the result, but the mishap has caused a great deal of anxiety on the part of Arizona's democratic senators. Mr. Webb made no explanation of his tardiness. Lost: The electoral vote of Arizona and its bearer. Finder please send at once to the office of the vice president of the United States. Senators and representatives of the state of Arizona sent broadcast last night the following notice, when at 6 o'clock, the time limit had expired for receiving returns from the national election last November, and Wilfred T. Webb, custodian of three perfectly good votes for Woodrow Wilson and Thomas R. Marshall, had failed to appear at the vice president's office in the capitol. Were Much Disappointed. Arizona's patriots and legislators were much disappointed, for though no political upheaval would be caused should the three little votes never be found, they did not want missing from history's archives Arizona's first vote for chief executives of the nation. For twenty-four hours before the vice

president's office was closed for the night, with every electoral vote except Arizona's on file, a systematic search of Washington hotels and clubs had been conducted in vain for Elector Webb, who, it was known, had left Phoenix with his credentials more than ten days ago, due to arrive here Saturday. Webb was last heard from in St. Louis four or five days ago. Under the law the elector chosen to bring to Washington the returns from Arizona should have filed his papers by 6 o'clock last night at the latest. If the penalty for failure should be enforced Arizona would lose its vote in the electoral college and the official messenger lost his mileage for the trip. The duplicate set of Arizona ballots that were sent by mail are on hand, and it is probable that no penalty will be enforced if Webb arrives today.

WOMEN SMASH IN CAMPAIGN

(Continued from Page 1.) and two of her companions were sentenced to fourteen days' imprisonment today on the charge of resisting the police in the execution of their duty when they dispersed a meeting in Trafalgar square last evening. Mrs. Despard, who is a sister of Gen. Sir John French, was offered the option of paying a fine of \$10, but she refused to accept this and was sent to jail. A fourth suffragette, who was among those arrested last night, was sent to prison for seven days. Mrs. Despard, addressing the magistrate after being sentenced, said that she would probably repeat her offense when she was released. Some sympathizers in court who made a demonstration when sentence was pronounced, were ejected by the attendants. A band of militant suffragettes bombarded the windows of the home office in Whitehall with stones this evening. Two women were arrested for participating in the attack. THREE ARE SENTENCED. Must Do Month's Hard Labor for Smashing Windows. Dublin, Ireland, Jan. 25.—Three suffragettes, Mrs. Hopkins, Mrs. Cousins and Mrs. Connery, who were arrested today on the charge of breaking fifteen panes of glass in the windows of Dublin castle, were sentenced by the police magistrate this afternoon to a month's hard labor each.

STOLE PHONOGRAPH RECORDS.

Harry Clark Gets Fine and Jail Sentence for Petit Larceny.

Harry Clark admitted in the city court that he had stolen twenty-four phonograph records from L. Roy R. Ward because he had spent all of his money for drinks. He said he was broke and took the records and pawned them. Judge Mangum fined him \$10 and costs and added a jail sentence of ten days. Jay Maloney and John Berry have been getting drunk too often and they were sent over for fifteen days each to keep them sober for awhile. George Pitzer and Frank Place, whose case had been continued from last week, each got \$5 and costs on charges of public intoxication. They have been telling fictitious stories to the police concerning their names and addresses and it was not possible to get a straight story from them.

THE A. O. H. ANNUAL BALL.

Elaborate Preparations for Big Dance at Commercial Club.

The annual reception and ball of the Ancient Order of Hibernians will be held this evening at the Fort Wayne commercial club under the direction of Division No. 1 and the county board of the organization. Elaborate preparations have been made for the dance, and many have come from other parts of the state to enjoy the festivities.

OSCAR MENEFEE BANKRUPT.

File Petition Scheduling Debts In Excess of \$4,750. A voluntary petition in bankruptcy was filed with Clerk T. J. Logan, of the federal court this morning by Oscar F. Menefee, a cement and paving contractor, who is represented by Leonard Rose & Zollars. The petitioner schedules his liabilities at \$4,750.07, and gives as assets, \$524, which is exempt under the state exemption law.

DIES FROM HYDROPHOBIA.

Bits of Dog Fatal in Case of Little Indiana Lad.

Terre Haute, Ind., Jan. 25.—Harry Lawlor, aged 5, died early today from hydrophobia at Sanford, west of here. The child was bitten last week, but the wound was slight. The dog was killed and the parents thought they had no further reason to fear rabies. Symptoms of the dreaded disease did not appear until last Saturday and then it was too late to try the Pasteur treatment.

DRUM CORPS NEEDS AID.

The newly organized Marshall Drum and Bugle corps is experiencing considerable difficulty in raising funds to defray its proposed trip to Washington to participate in the inaugural ceremonies and with only about one-half enough money on hand, will ask for public subscriptions for the remainder, so that Fort Wayne may be represented when Woodrow Wilson and Thomas R. Marshall take office.

FORMERLY LIVED HERE.

Mrs. Louise Geesman, a daughter of the late Edward Rockhill, a pioneer resident of Fort Wayne, died Monday at her home in Niotaz, Kan., after a long illness from dropsy. She was a sister of William Rockhill, of Arcola. Surviving she leaves two sons. Funeral services and interment will be held at Niotaz. Kekionga Hivv, No. 83, Ladies of the Facades will give a party Thursday afternoon at the hall over the Star theater.

SCHROEDER WILL ASK BIG CHANGE

Wants County and City Election Precincts to Conform.

SUBMIT PLAN TONIGHT

President Louis C. S. Schroeder will present at the meeting of the city council tonight a plan whereby the precincts of the county and city voting precincts will conform and by this method he hopes to avoid confusion. As the precincts are now arranged the first precinct in the city is in Washington township and it is No. 2 in the city elections and this makes it hard for the voters to understand. Under the proposed system the first precinct will become A, the second will become No. 1 and all will be set back one number. When Adams township is reached the city precincts will be lettered B and C and this will rearrange all so that if a man lives, for instance, in the twenty-first precinct of the city, he will be in the same county precinct. Mr. Schroeder has gone over the matter carefully and an ordinance will be prepared and presented. Councilman Braun will present an ordinance authorizing the issuance of \$15,000 of bonds to purchase property for the Eight ward park, but the measure authorizing bonds for the assembly hall will not be ready before the first meeting in February. The committee on contracts and grants will submit favorable reports on the coal contract with the Martin-Hove coal company and on the contract for an auto ladder truck for No. 2 engine house. Will Go to Council. The resolution for the elevation of the Pennsylvania company's tracks at Walton avenue will go to the city council at its next meeting for consideration. It was passed yesterday by the board of public works and the company filed a formal objection.

WANTS SCHOOL AGE ADVANCED

(Continued from Page 1.)

Smith, of Anderson, that the bill might be declared unconstitutional. Representative Jenkins, of Wayne county, said: "The interurban cars that come from west into dry territory carry many persons whose desire to drink intoxicants from flasks and bottles in their possession makes them a nuisance to other passengers. If a man is in an auto and wants to take a drink, let him stop his machine if it is unlawful to imbibe intoxicants while the car is in motion." Goes to Engrossment. The motion of Representative Legender to amend the bill by striking out the enactment clause was lost, and the house sent the measure on for engrossment.

The house accepted the majority report of the committee favoring indefinite postponement on the Spencer bill directing the auditor of state to appoint civil engineers and surveyors to establish boundary lines of property. It was pointed out that the bill would entitle the engineer to a per diem salary of \$10.

A court bill presented by Senator Hibbard, of South Bend, provides for a superior court in St. Joseph county. Senator Kistler, of Loganport, presented a bill which provides that city attorneys in fourth class cities may investigate all claims against the cities and recommend compromises to the boards of public works, which are authorized by terms of the bill to make appropriations for the amounts recommended.

The Busy Stotzenberg.

Senator Stotzenberg, of New Albany, showed up with two more bills. One of them exempts from taxation vendors' liens to the extent of \$700 as mortgage exemptions are now made. The second one exempts from taxation one male dog for the head of any family.

School boards are required to publish annual statements of receipts and disbursements of all funds within four weeks after closing the fiscal year, in two newspapers, by provisions of a bill from Senator Vannoy, of Anderson.

A bill to do away with the county auditor's tax duplicate was introduced by Senator George Wood, of Windfall. He says the bill was drawn by the state board of accounts after he had conferred with them. The same senator presented another measure making the salary of the foreman of janitors at the state house and certain other workers \$1,200 and provides for fifteen janitors at \$1,000 each a year.

The provision that burial costs shall be the first paid out of estates of deceased persons is changed to put doctors' bills in equal standing by a bill introduced by Senator Ratta, of Paoli. He also introduced a bill cutting down the time of perfecting appeals to the supreme or appellate courts from one year to six months.

Proposes Salary Raise.

Senator Fleming, of Fort Wayne, presented a measure raising the salary of county school superintendents to \$2,500 in counties having a population of 80,000 or more.

Three of the bills which passed the senate had been introduced by Senator Kistler. One removed the mandatory clause in the law requiring circuit clerks to make complete records of quiet title cases; another was that providing that legal notices may be published in weekly papers. The third provides for the reduction of street assessments to county officials who keep such records. The fourth bill passed was that of Senator Faulkner, of Michigan City, correcting the title of an act which raised salaries of St. Joseph county officials.

The housing bill, introduced in the senate by Senator Clarke, of Indianapolis, at the request of Mrs. Abner Fellows Baron, of Evansville, passed second reading today in the upper house. It was ordered engrossed. Mrs. Baron was present in the senate chamber at the time and expressed satisfaction at the progress the bill has made. She expects the bill to pass both houses at this session.

Divide on Keegan Bill.

A divided report on the Keegan bill limiting the work day for women to eight hours will be handed in by the

B. O. B. PROGRAM IS OF INTEREST

A. W. Stults to Preside as Toastmaster at the Banquet. AT ANTHONY HOTEL

The committee on arrangements for the first national convention of the Benevolent Order of Buffaloes, to be held in Fort Wayne Thursday and Friday of this week, has completed the program for the big meeting, and it is likely that the visiting delegates will find their time well occupied while in Fort Wayne. The convention opens Thursday morning at 10 o'clock at the Anthony hotel, which will be the headquarters during the meeting. After the preliminary greetings, registration and reception of delegates, an address of welcome will be delivered by Mayor Jess Grice, of Fort Wayne.

At the close of the morning session, the visiting delegates will be the guests of Supreme Organizer W. E. Wells, at dinner at the Anthony. The afternoon session will be occupied by the election of officers and appointment of committees. Thus far during the history of the Benevolent Order of Buffaloes, the supreme officers have for the most part been selected from Fort Wayne. It is the plan to now elect officers for the supreme body from other cities about the country. Owing to this fact, some interesting developments are expected from the election.

Banquet at Night.

The convention banquet will be held at 6 o'clock Thursday evening at the Anthony hotel, and Austin W. Stults, chairman of the entertainment committee, will preside as toastmaster. Addresses will be delivered by E. E. Gregg and C. A. Bookwalter, of Indianapolis; Herman Morris and R. L. Harris, of Louisville, Ky.; Hon. John G. Roth, of Cincinnati; Clark Good, of Van Wert, O., and Hon. J. T. Harrison, of Cincinnati.

The closing session will be held Friday morning, beginning at 10 o'clock, with the reports of the various committees, followed by the regular lodge work of the supreme body.

At the close of the banquet Thursday evening, a joint meeting will be held by herd No. 1, of Fort Wayne, and the officials of visiting herds. An address will also be delivered at this session by Hon. W. W. Gregg, of Indianapolis, founder of the order.

REMAINS OF GIRL ARE TO BE HELD

(Continued from Page 1.)

that relatives of the murdered girl informed him that she nodded her head "yes" in answer to a question asking if her husband shot her.

Mrs. Drake, mother of Mrs. Hoover, while in Fort Wayne this morning, also stated that her daughter, in response to a similar question shortly after the tragedy, said that her husband did the shooting.

It is believed that the grand jury will return an indictment against Hoover late this afternoon. When the young man was informed by Sheriff Wilson, that his wife had died, he steadfastly declared his innocence of the crime.

Improved for a Time.

Since her removal to the hospital here ten days ago, Mrs. Hoover seemed to grow steadily better and at various times regained partial consciousness, although still in a deep stupor. The change for the worse came Sunday night at 8 o'clock, and after this time little hope was entertained for the unfortunate girl's recovery. Her temperature rose to 106 Sunday night, but during Monday fell to 104. At 6 o'clock Monday night, however, it was found that the deadly fever was doing its work and nothing could be done to counteract its ravage.

Mr. and Mrs. A. B. Drake the father and mother of the young woman, were the only persons at the bedside, besides the nurse, when she passed away.

Her Speech Was Gone.

Prosecutor Good visited the bedside of the dying girl Monday when it was learned that she had not many more hours to live. He wished to secure an ante-mortem statement, but Mrs. Hoover was devoid of speech and no statement was available. This fact will make the conviction of the girl's slayer more complicated. Ralph Hoover, in jail at Van Wert, has refused to say anything concerning the shooting, but the Ohio authorities think that he will break down and give a statement that will clear up the mysterious side of the case.

Expect a Confession.

Although Hoover has retained usual mental poise until yesterday, jail attendants assert that when he learned that his wife was dead he has wept bitterly.

REV. DR. DANIEL FISHER DIES.

Father of Secretary of Interior to be Buried in Indiana. Washington, Jan. 25.—Rev. Dr. Daniel Fisher, father of Secretary Fisher, of the interior department, died here today of heart failure after an illness of several months. He was 75 years old. As a Presbyterian minister he had served churches in New Orleans, and Wheeling, W. Va., and was a member of the committee which revised the confession of faith. He will be buried at Hanover, Ind., next Thursday.

EXTENDS AN INVITATION.

American Civic Association After a Local Representative. Charles L. Biederwolf, secretary of the Fort Wayne Commercial club, has received a communication from officials of the American Civic association, which asks that the club appoint a representative to accompany the national organization on its annual tour to Europe, for the study of civic problems.

Last year Theodore F. Thieme, president of the club, represented the local commercial body on the tour of Europe under the direction of the Boston Civic association.

Deputy Revenue Collector Lew P. Sharp left this morning for Mishawaka on government business. He will be away from the city during the remainder of the week.

PLAN TO TIRE DEMOCRATS OUT

(Continued from Page 1.)

case must stand on its merits and be taken up as such. It was decided to revoke the agreement to proceed first with army and navy appointments, the republicans holding that the democrats had shown a lack of good faith by their deliberate manner of proceeding with them. It was further held that the agreement was confined to the time it was made.

The republican side finally moved to take up the nominations in order. This was resisted by the democrats on the ground that the senate was under an agreement to consider first the promotions in the army. The point was debated at length, the republicans contending the understanding expired the day it was made, while the democrats urged it was binding to the end.

Full-Fledged Filibuster.

As the executive session proceeded it developed into a full-fledged filibuster. Senator John Sharp Williams launched into a presentation of the dangers the American army might encounter from projectiles shot from aeroplanes. He read long reports to show how much more completely foreign armies were supplied with destructive engines of warfare as he called them, than that of the United States. He said that in case of war with Mexico the enemy could utterly devastate the army of the Rio Grande by sending a flock of bird men into the air and dropping bombs in their ranks. The speech was highly humorous and excited laughter on both sides of the chamber.

During a lull in the Mississippi senator's speech, Senator Brandegee took occasion to ask Senator Martin, of the democratic side, whether he had agreed to his party when he had agreed that the army, navy and diplomatic appointments would be taken up in the order named. The Virginia senator replied that he had spoken for himself merely, but that he had no doubt that most of the democrats would assent to such an arrangement. The controversy between the two senators had not progressed far when the chair ruled the proceeding out of order. Senator Culberson took exception to the ruling and an aye and no vote was ordered.

Began to Scatter.

At this opportunity the senators began to scatter. Some went to lunch, others to their offices and some had business "down the street." It immediately became evident that they were determined to break a quorum and the sergeant-at-arms was soon busily engaged in an effort to locate enough senators to do business.

When ultimately a quorum was procured, several motions, including one to go out of executive session and another to adjourn, were voted down and the general discussion continued.

CITY HAS BREAD FAMINE.

Capital of Peru in Sore Plight Because of Strike. Lima, Peru, Jan. 25.—The Peruvian capital was today practically without bread. All the bakers in the city this morning joined the general strike of factory employees and other workmen which began early in January.

ONE DOSE MAKES INDIGESTION GO

Heartburn, Gas, Dyspepsia and All Stomach Distress ended with "Pape's Diapepsin."

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action regulating sick, sour, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

CERTAINLY CURES COUGHS

NEWS OF OUR NEIGHBORING TOWNS

HIGH WATER IN WARSAW LAKES

Even With Hard Freeze in Next Two Weeks Ice Packing Could Not Be Resumed.

Warsaw, Ind., Jan. 28.—Ice packing could not be resumed on the lakes surrounding Warsaw even if a hard freeze would bring ice of sufficient thickness for harvesting. This statement was made by John Collins, the veteran ice man. He says the lakes are now so high that it would be impossible to use the machinery at the ice houses. He figures that it will be at least two or three weeks before the lakes have dropped back to a level where packing can be carried on successfully.

Fortunately, the companies supplying ice for Warsaw started their harvest early and pushed the work so rapidly that their houses were nearly filled when the thaw came. There is little danger of a famine as far as Warsaw is concerned.

HAS BROTHER IN FORT WAYNE.

Death in Van Wert Hospital of Mrs. Ida Rathburn.

Van Wert, O., Jan. 28.—Mrs. Ida Rathburn, of Grover Hill, died yesterday at the Van Wert County hospital, where she underwent a very serious operation last Thursday. Following her death her remains were removed to the home of her sister, Mrs. George Fronsfield, of South Wayne street, and prepared for burial. Mrs. Rathburn, who was 41 years of age, is survived by a daughter, Mrs. Myrtle Burget, of Grover Hill; her father, John Gorham, sr., also of that town; a brother, John Gorham, jr., of Fort Wayne, and her sister, Mrs. Fronsfield. The remains were taken to her home and the funeral services will be held Wednesday at Grover Hill.

ROBBERY AT LAGRANGE.

Broke Into Depot Pay Telephone Station and Slot Machines.

Lagrange, Ind., Jan. 28.—The depot of the Valley Line interurban railroad here was broken into last night about 8:30 o'clock and the telephone pay station and gum-vending machines robbed of the money they contained. Just what amount was secured by the robber is not known. He is thought to have been a stranger, who earlier in the evening was in the waiting room acting suspiciously and was ejected. Later after the room was closed he effected an entrance through one of the windows, which he pried open. The fellow escaped arrest. It is thought he left on a southbound train at 8:40.

PRaise PRESIDENT-ELECT.

Kendallville, Ind., Jan. 28.—By practically a unanimous vote a capacity audience at the tabernacle Sunday evening took the suggestion of Evangelist John Hamilton, of Cleveland, Ohio, and declared in favor of wiring President-elect Woodrow Wilson, commending him for the stand he has taken against an inaugural ball. Subsequently a telegram was sent to Governor Wilson and in which he was praised for the position he has taken.

EXTEND CALL TO PASTOR.

Kendallville, Ind., Jan. 28.—The members of the Presbyterian church, at a congregational meeting held, decided to extend a call to the Rev. M. V. P. Yeaman, of Harrisburg, Kentucky, to the pastorate of the local church. Rev. Yeaman occupied the pulpit of the church here recently and made such a favorable impression that the church members immediately began taking steps to secure him, if possible.

HAS GONE TO CALIFORNIA.

Kendallville, Ind., Jan. 28.—Miss Junia Wolff, who has accepted position as instructor in music in the public schools of Pasadena, California, at a salary of \$1,200 for ten months' work, has gone to that city to enter on her duties. For some time she has occupied the position of organist and chorister of the First Methodist Episcopal church and was also a member and the director of the Lyric quartet.

ECZEMA BROKE OUT IN PIMPLES

On Face, Arms and Parts of Body Itching and Burning Intense. Scratching Disfigured Face. Cuticura Soap and Ointment Cured.

386 30th Ave., Milwaukee, Wis.—"I was cured of eczema by Cuticura Soap and Ointment. My face and arms and other parts of my body were affected. The way it broke out was in pimples, then it became a rash. The itching and burning were so intense that they made me scratch and disfigure my face. My clothing was very close to my body and was very irritating. I kept on from getting my sleep."

"I used several remedies which were of no success. I suffered a year or more with eczema, then I began to use Cuticura Soap and Ointment. It was several times I used them and then they relieved that itching. I continued my treatment and now I have no trouble whatsoever. Cuticura Soap and Ointment cured me completely." (Signed: Miss Alice A. Martens, Aug. 3, 1912.)

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold everywhere. Illustration sample of each mailed free, with 22-page book. Address post-card "Cuticura," Dept. T, Boston.

43-Tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free.

JURY SELECTED TO PROBE MURDER

Will Investigate Fully All Details Connected With Purdy Murder at Bluffton.

Bluffton, Ind., Jan. 28.—The jury commissioners met yesterday and selected the grand jury which will investigate the murder of Samuel T. Purdy, for which John W. Lee and his wife, Mrs. Cora Lee, are now held in the county jail. Lee is the slayer of Mr. Purdy, shooting him three times at the rear of his home on West Wiley avenue, at Bluffton, Thursday, January 9. By his own confession the murderer says that his wife urged him to do the killing and she is held as an accessory to the crime.

The grand jury is composed of John Thomas, Oscar Way, Willis White, William Prillman, Ernest S. Cotton and William S. Redding. The jury, no doubt, will retain a charge of first degree murder against Lee. What action will be taken in the case of the woman is doubtful, but the state's attorney thinks they have sufficient evidence for an indictment.

It is not known as yet whether Lee's trial will be called during the term, starting next Monday, but he is anxious to get it over with, according to his statements made at the jail. Every detail of the killing will be taken up by the grand jury and it is thought that many witnesses will be examined.

FACTORY FUND CAMPAIGN.

Huntington Will Be Successful in Raising \$20,000 For Foundry.

Huntington, Ind., Jan. 28.—A canvass of the different banks and firms holding the subscription lists for the stock of the Huntington Machine and Foundry company Monday showed that the total amount subscribed was \$30,330, which leaves a total of \$18,700 to be raised before Feb. 3, so that the final contract of the local men with the Cincinnati men can be signed up. It was found that approximately \$10,000 had been subscribed to the stock since the mass meeting at which the first sum was raised. Those who have the subscription papers in hand say the full amount will be secured.

FACES SLOW STARVATION.

Child Who Drank Lye Water Will Probably Die As Result.

Huntington, Ind., Jan. 28.—The small child of Mr. and Mrs. Mapes, of Railroad street, which has been in a serious condition since drinking a quantity of lye water some time ago, is now in danger of starving to death. As is often the case following such severe burns, the oesophagus, the part of the digestive tract from the throat to the stomach, has been gradually contracting until it is now nearly closed. Within a short time it is expected that the opening will entirely close so that no food can be swallowed. In such an instance, unless food is introduced into the stomach by other means death will result.

WHITLEY FARMER DEAD.

Columbia City, Ind., Jan. 28.—Miles W. Bristow, ex-treasurer of Elma township, who had been impaired in health for the past year, died at his home northeast of Elma Monday, after suffering with a cancer of the right hip bone, which affected the surrounding tissues. The deceased was one of the best known farmers of the county.

CONVOY NEWS.

Convoy, O., Jan. 28.—Mrs. Beecher Allen spent Friday with her brother, Frank Leslie, at Van Wert.

Mrs. A. M. Scherick made a business trip to Van Wert Friday.

Marian Mentzer went to Fort Wayne on business Friday.

Mrs. T. J. Wilt will visit for a few days with her daughter, Mrs. Ray Bowland, of Van Wert.

Mrs. John Hart and daughter, Dorothy, spent part of Friday in Dixon with Mrs. Francis May and children.

Mrs. J. W. Hiskitt left Friday morning for a few days' visit with her mother at Cardington, O.

Harry Hudson was at Van Wert Friday on a business mission.

Mr. and Mrs. H. G. Froek went to Toledo Saturday for a few days' visit.

Mrs. Elizabeth Wright, of Piquette, came to Convoy Friday for a few days' visit with her brother, R. H. Perry, from Fort Wayne, where she has been staying with Mrs. Charles Stryker, who is convalescent at Hope hospital.

Thomas Salmon went to Monteville to spend Saturday and Sunday with his cousin, Peter McArdle.

Dan Pugh went to Forest Saturday.

Mrs. John Fritz was a Van Wert shopper Saturday.

Mrs. Clem Soren and son, Lester, of Baldwin, Ind., are visiting her mother, Mrs. Charles W. Helms, west of Convoy.

Prof. Ray Eife, superintendent of country schools, was calling on his many friends in Convoy Saturday and Sunday.

Mr. and Mrs. F. A. Hilton went to Maples to spend Sunday with her parents.

Miss Edna May was at Fort Wayne Saturday shopping.

Mr. and Mrs. Irvin Helms and children spent Sunday with his mother, Mrs. Charles W. Helms, west of town.

J. E. Mollenkopf and daughter, Mary, were visitors at Lima, O., Thursday.

Mrs. G. W. Bowker, of Fort Wayne, and Mrs. Belle Bowker, of West Mansfield, are visiting at the home of Capt. H. P. Holmes.

J. W. Miller and son, Charles, were business callers at Van Wert Saturday.

Mr. and Mrs. C. H. Hoelle returned to their home in Van Wert after a short visit with her parents, Mr. and Mrs. D. M. Riley.

Mrs. J. J. Etter visited a few days last week with her family.

Theodore Hertz and Peter Seiser have returned from a trip to Florida. While there they visited Andy Becker, formerly of Convoy, and report him doing well and the owner of an orange farm.

OSSIAN NEWS.

Ossian, Ind., Jan. 28.—Mr. and Mrs. Frank Mercer, of Fort Wayne, were guests Sunday in the home of their cousins, Mr. and Mrs. Ward Fryback.

Mrs. H. C. Trevey was an over Sunday visitor with relatives in Fort Wayne.

Miss Clara Burnett, who is teaching near Woodburn, was home from Friday to Sunday evening with her parents, Mr. and Mrs. J. S. Burnett.

Dr. I. N. Hatfield, of Bluffton, spent Sunday afternoon as guest of his mother, Mrs. Ann Hatfield.

Miss How Elzey was a Fort Wayne visitor Saturday.

Mrs. Emmet Rector, of Pennville, who has been visiting with her parents, Mr. and Mrs. W. A. Woodward, for several days, returned home Sunday evening. She was accompanied home by her father.

Dr. D. Carr spent Sunday with Fort Wayne friends.

Mr. and Mrs. Ernest Cotton, of Prospect, were guests Sunday in the home of Mr. and Mrs. J. V. Goshorn.

Fred L. Sharp will leave Tuesday for Indianapolis to attend the National Hardware convention. Mrs. Sharp will join him the middle of the week.

Mr. and Mrs. Jacob Fatcher and Mr. and Mrs. James Clark were guests Sunday in the home of Mr. and Mrs. George Fatcher, of Bluffton.

Miss Laura Kreigh, who is in training for a nurse at Hope hospital, was home for Sunday with her parents, Mr. and Mrs. Samuel Kreigh.

Mrs. George Shepherd spent last week at Markle helping to care for her parents, Mr. and Mrs. Samuel Landis, who are both ill of pneumonia.

Mr. and Mrs. Walter Timbrook were Sunday guests of his sister, Mrs. Ed Gollmer, of Fort Wayne.

Mr. and Mrs. Frank Smith and family, of Prospect, were guests Sunday of Mr. and Mrs. Will Cotton, of West Ossian. Mr. Smith is a brother of Mrs. Cotton.

Mr. and Mrs. E. H. Huston entertained at Sunday dinner Mr. and Mrs. Elwin F. Goshorn and family, also Mr. and Mrs. Frank Fought.

Mrs. F. W. Longfellow, of Ellettsburg, Ind., has come for a few weeks' visit with her parents, Mr. and Mrs. A. C. Ferguson.

Mrs. Lee Chalfant will go to Payne, O., on Wednesday for a few days' visit with her daughter, Mrs. John Lamb.

Miss Mary Kelly, of Muskegon, Mich., came Saturday for an extended visit with her sister, Mrs. Will Cotton, of W. Orla Cox, of Indianapolis, came Saturday evening for a short visit in the home of his cousins, Mr. and Mrs. Marion Hoover. Mr. Cox, who was formerly a student at the Commercial college of Ossian, is now private stenographer for the general passenger agent of the L. E. & W. railroad.

Robert Sparks, of the firm of Shepherd & Sparks, has moved his household goods and family from Huntington to the Wm. M. Deon property in West Ossian.

Mr. and Mrs. Holsenfield, of Fort Wayne, are guests in the home of the former's aunt, Mrs. Margaret Smith.

Mrs. Robert Sparks went to Markle Saturday to care for her parents, Mr. and Mrs. Samuel Landis, who are ill. Her sister, Mrs. George Shepherd, had returned Friday.

Henry McClelland, of Portland, Maine, who has been the guest of his sister, Mrs. Ellen Gibson, and other relatives in Ossian for several weeks, will leave Wednesday for Duluth, Minn., where he goes to visit his niece, Mrs. George Laybourn. He will be accompanied to Fort Wayne by his niece, Mrs. Lee Chalfant.

Mr. and Mrs. George Shepherd left today for Indianapolis. Mr. Shepherd to attend the National Hardware convention and Mrs. Shepherd to visit her nephew, Elzey Landis.

Mr. and Mrs. A. S. Elzey, son Dale, and his cousin, Dallas Elzey, of Preble, who was an over Sunday guest with them, all motored over to Preble Sunday evening to the home of Dallas Elzey's parents, Mr. and Mrs. Douglas Elzey.

Announcement has been made of the approaching marriage of Miss Ethel Fay Davidson, daughter of Mr. and Mrs. David Davidson, to Mr. Edward Lee Gaunt, son of Arthur L. Gaunt.

Mr. and Mrs. Wesley Swartz, of Monterey, Tenn., are guests of Mr. and Mrs. Harry Carpenter. Mr. Swartz is a brother of Mr. Carpenter.

Mr. and Mrs. Otto Merriman, of Murray, were guests Saturday and Sunday of Mrs. Merriman's parents, Mr. and Mrs. D. C. Hall.

Little Wilda, daughter of Mr. and Mrs. J. E. Plummer, who has been very ill with broncho-pneumonia, is better.

Mr. and Mrs. W. M. Scott, of Bluffton,

are the guests of Mr. and Mrs. A. C. McCague.

The program given by the Alpha and Beta Literary societies at their "open meeting" pleased the one hundred and fifty invited guests. After a high school chorus Miss Ruby Quackenbush read a specially prepared theme which was interesting and well read. A male quartet, composed of Messrs. Dale Kreigh, Wayne Ferguson, Gideon Hunter and Orrin Roe, furnished a selection. T. A. Doan gave an interesting talk on English customs. Miss Phoebe Summers gave a monologue, and Miss Maud Weirich read an excellent paper. Superintendent Aaron Deich then addressed the school. A play performed by Misses Marjorie Hunter, Phoebe Summers, Augusta Yager, Marie Hunter and Messrs. Dale Elzey, Alfred Summers and Wayne Ferguson completed the program. After this the young people served their guests refreshments of ice cream and cake.

Marion Hoover will soon move to the Will Woodward farm west of Ossian, now occupied by Mrs. James Baker. The latter will move back to Ossian and take up her residence in her South Jefferson street home.

Becky Bros. have just completed the largest timber deal that has been made in this vicinity for many years. They have purchased from Hilerman Bros. of Adams county, one hundred and seventy-one acres of the finest oak and hickory trees to be found in this locality. There are single trees in the bunch that will yield 3,000 feet of lumber. This will be sufficient to keep the mill running at full capacity for four months and the output will be something like 180,000 feet of timber. The timber lies in Adams county, southeast of Ossian, and is probably the largest tract of good timber yet standing in this section.

About 7 o'clock Friday evening a small fire occurred at the Ossian high school building which for a few minutes threatened to destroy the entire building. It was caused by a leaking gasolene lamp in the office of Supt. Aaron Deich. Preparations were being made for the "open meeting" of the Alpha and Beta Literary societies and Marshal Malneusmith and Clark Fisher were putting up a temporary light in the office. The gasolene leaked down Fisher's arm and became ignited. In attempting to put out the flames he was scorched and burned about the face and arms. Prompt action on the part of these boys and the janitor, Hiram Whetstone, prevented a bad fire.

Mrs. Tanton Swain, of Fort Wayne, is visiting in the home of her brother, Wessie Crummitt.

ANDREWS NEWS

Andrews, Ind., Jan. 28.—After a few months' engagement in the grocery and meat business the firm of Keeler & Hatfield has been dissolved by Mr. Keeler purchasing his partner's interests in the business. The transfer was made Monday.

Lin Crosser and family visited Mr. Crosser's brother Lyman and family in Huntington Sunday.

Mrs. F. E. Fultz returned Wednesday from a three days' visit with the Roberts' family in Lago.

A benefit basketball game will be played between the fats and the lean Friday night, January 31, for the fire department fund to purchase a chemical engine.

Mr. and Mrs. W. H. Geringer, of Peru, are enjoying the presence of a son in their home since last Friday.

Mr. and Mrs. Wade Williams visited Mrs. Grace Hummel at Marion Tuesday.

Miss May Durham, of Roanoke, was a Sunday visitor at the J. R. Small home.

Mrs. Catherine Turner, of Marion, was the guest of Mrs. Emma Williams several days last week.

Friends of Mr. and Mrs. E. H. Stephenson sympathize with them in the loss of their five days' old babe, which occurred last Monday.

Miss Celia Cramer and Miss Hazel Cramer were visitors of their grandmother, Mrs. Joel Cramer, Sunday.

Mr. Raymond Semalazoid was a caller in Huntington Monday.

Mr. J. R. Small and Mr. Myrrel Sprawl were in Fort Wayne on business last week.

Mrs. N. Douery was a guest here last Friday from Vandalia.

Mr. Van Ruggles was a caller in Vandalia last week.

Mrs. Geo. Todd and daughter, Bertha, who have been sojourning in California and the south, the past three months, with friends and relatives, arrived home last Tuesday. They report a most excellent time.

A crowd of friends and relatives came in from Kokomo and repaired to the home of Mr. and Mrs. Anderson, north-east of town last Friday, where they spent a few days as their guests.

A brand new baby arrived to gladden the home of Mr. and Mrs. Arlie Tildon, east of town.

Misses Bertha Fox, Clara and Irene Liggert are spending a few days this week with friends in Peru.

Ed Bowles, of Fort Wayne, was shaking hands with friends in this place last week.

Antwerp, O., Jan. 28.—Miss Ruth Carr was a Fort Wayne caller Monday, where she spent the day shopping.

Mrs. Alva Grooms, accompanied by her mother, Mrs. Maggie Kerns, went to Fort Wayne Monday, where the latter is taking treatment for her eyes.

John Oliver was called to his old home at Lexington, Ill., Monday, by the illness of his mother, Mrs. Mary Oliver.

Mr. Bryan in the Cabinet

Washington dispatches, presumably authentic in character, say that William J. Bryan has advised a number of close friends of his intention to accept the invitation to enter the new cabinet as secretary of state. While it has been given out repeatedly from Trenton that the president-elect has reached no final determination regarding the personnel of his official family, the country has generally accepted it as a matter of course that Mr. Bryan would be invited to occupy the place of cabinet premier. And why not? If political evolution of the past four years means anything at all, it means an ascendancy of the principles for which Mr. Bryan has been battling ably and consistently. The drift has been plainly toward Mr. Bryan; not away from him. Men who a few years ago regarded the Nebraskan as revolutionary and dangerous have come to appreciate the fact that he has been far-seeing enough to delve ahead of his day, and that the people have merely begun to catch up with him. Moreover, it has come to be accepted that his motives have been inspired by a lofty patriotism untainted by any tinge of self-interest. Defeat has not lessened either his power or his hold upon public confidence. Mr. Bryan in the Wilson cabinet would be a clearly logical development of the undoubted trend toward progressive ideas and policies, and it would be an occasion for congratulation rather than alarm.

County Treasurer Bueter expresses satisfaction at the manner in which response is being made by tax delinquents to notices demanding payment, and if there is a puzzling problem with which county treasurers are forced to deal, it is the collection of delinquent taxes. Thousands of dollars have remained delinquent on the books of Allen county every year simply because it was impossible to enforce collection in many cases, and it has constituted an unwarranted burden upon the shoulders of those who conceived it to be a duty of citizenship to make some sort of financial return in this manner for the governmental protection and privileges they enjoy. There may be occasional instances in which payment is an actual impossibility, but this cannot be urged in palliation of the cases of the majority of offenders. Drastic laws have in some degree been of assistance in the collection of taxes, but what is most needed is a change of view upon the part of the delinquent that will make tax-paying appeal to him as a duty instead of a bug-bear to be dodged if it is possible to do it.

One most unusual feature of the coming municipal campaign in Terre Haute is the prospect of father and son running against each other for mayor. Donn M. Roberts is being groomed as the democratic organization candidate for the nomination, while Dr. W. H. Roberts, his father, announces his candidacy on an independent ticket. With this sort of an arrangement, it looks like more or less of a cinch for the Roberts family this year.

The difference between "may" bills and "shall" bills has precipitated lively contests over a number of proposed measures now before the Indiana legislature. All of which may be important, but it doesn't follow that even laws bearing the mandatory "shall" succeed in getting into full running order in this state—as, for instance, the requirement making the appointment of a police matron mandatory in Fort Wayne.

LAW FOR "PURE SHOES."

(Indianapolis Star.)

In these days of scientific chemistry it is not a difficult matter to counterfeit anything from flavoring extract to leather. In fact, the making of artificial leather has grown to such an extent that a "pure shoes" bill has been introduced into congress, modeled somewhat along the same lines as the pure food law.

It is intended to prohibit the use of adulterants in leather which is made into footwear and sold as high-grade shoes. It is an easy matter now to mix up leather scraps and shavings with glue, grind it to a pulp, roll the mass out into a "side" of leather that can scarcely be told from a real cowhide, when nailed on a shoe for heels and soles, except for wearing qualities. Of course, there is no objection to "artificial" leather, and no doubt it can be produced at a decidedly small cost. But there is an objection to using this stuff labeled as real leather and getting real leather prices for it.

Some shoe manufacturers had uttered a vehement protest against any legislation along this line, saying that instead of curtailing the manufacture of the stuff a premium should be put upon it to encourage its making. All true. But some of the manufacturers of shoes do not hesitate to use the adulterant in place of genuine leather and sell their product for the same money that others get for real leather goods. This is the

injustice of it. If the purchaser is informed as to such adulteration and gets the benefit of the reduction which ought to be made, well and good, though some doubt is expressed as to the real economy of such a substitute. But what is absolutely needed is a law that will compel unscrupulous shoemakers to label their product exactly what it is and do away with the scheme for getting money under false pretenses. Louisiana has such a law, which will go into effect early in July. A bill similar in design to apply to interstate commerce in boots and shoes is what is needed.

At the convention of cleaners and dyers in this city a few days ago a resolution was passed denouncing the "loading" of clothes and call for legislation along this line. Such relief should be granted, not only for all sorts of clothes, but for footwear as well. Purchasers should know exactly what they are buying and should have to pay accordingly. The pure food law has saved the people millions by compelling honest weight and honest ingredients. A pure shoe law and a pure cloth law would do the same thing for the people.

THE JUDGE OF POSTERITY.

(Pittsburg Dispatch.)

"Uncle Joe" Cannon, philosophizing in the house yesterday on the evanescence of fame, predicted that a hundred years from now the best remembered names in American history to this date would be those of Washington,

CRUSHING BLOW TO THE WASHINGTON SUFFRAGETTE PARADE

THAT'S THE STUFF! SHOW THE MEN WE CAN'T BE TURNED INSIDE IN OUR MISSION!

NOthing CAN STOP US! I'LL BE IN THE FRONT RANK! ON TO WASHINGTON AND FREEDOM WILL BE OUR BATTLE CRY!

WE WILL EMULATE OUR SISTERS WHO MARCHED ON ALBANY. HUH? *!?

BACK TO THE KITCHEN! THERE'LL BE NO HIKES FOR ME!

Lincoln, Grant, Lee and Jefferson Davis. He is probably right, because they are indelibly associated with crucial events in the national history. Others have stood for great ideals for far-reaching policies, but their weaving into the warp and woof of our national fabric was the process of time. They lacked the sharp, well-defined and concrete totality connected with the five names cited, the father of his country, the savior of his country, the leaders in the great struggle between the states and the man who set up a rival government.

To descend from consideration of such historic figures to the probable impressions on posterity of speakers of the house marks the dividing line. Important as the speakership is, held by some to be the second most important office in the land, at least before it was shown of its powers, how many names of speakers can be recalled off-hand? Reed stands out more strongly, but this, too, because he stood for a definite idea, embodied in the attribute of "Czarism." Of vice presidents, cabinet members, senators and representatives it is even more true, and many are hazy about the administration of not a few presidents. Alas, it is the same. How many of the names of world-shaking statesmen of 50 or even 25 years ago are familiarly remembered today? Blount, because he built an empire. Gladstone, for his battle for home rule. Gambetta, Cavour, scarcely memories. Truly fame, in the sense of being household words, is fleeting.

PRESS COMMENT ON THE PUJO MONEY QUIZ.

"Nervousness."

Savannah News:—"We do not know what the findings of the house committee on banking and currency will be, but it is noticeable that it seems to be asking searching questions—questions that

are causing irritation, nervousness and anxiety in New York's financial circles."

"Periodical Emergencies."

Brooklyn Eagle:—"A nod being as good as a wink to a blind horse, if the Pujo committee dislikes plutocracy let it devise a currency system that would not disgrace China, and the periodical emergencies will pass into history."

"Inadequate Foundation."

Houston Post:—"The money probe is beginning to reveal how difficult a task it is to erect a scientific monetary system upon such an inadequate foundation as the present system affords."

"Political Instinct."

San Francisco Chronicle:—"It is not at all safe to assume that congressmen will render a safe verdict, for they are so convinced that it will be 'popular' to represent bankers as criminals that they are almost certain to be guided by political instinct."

"Rock."

Washington Herald:—"Congress can legislate for the United States, but not for the London, Paris, Frankfurt, Berlin or Vienna exchanges. And that is the rock on which the Pujo committee will founder."

"Credit."

Charleston News and Courier:—"No man invented credit. It came spontaneously as a result of the native good that is in human beings."

"Speculation."

Savannah News:—"It is vain to inveigh against speculation. A certain kind and amount of speculation is even necessary."

"KILL ME!" BEGS TORTURED WOMAN WHO SAYS IT IS DUTY OF SOCIETY TO PUT HER OUT OF HER MISERY.

BY HARRY BURTON.

New York, Jan. 27.—Mrs. Sarah Harris wants to be put to death. And she declares that it is the duty of society to kill her.

Mrs. Harris lies on a white cot in a sanitarium overlooking the Hudson, un-

able to move a single muscle of her body, except those of her face and neck. She knows that she will always be helpless, and always in pain. And so she challenges medical and legal ethics, and the teachings of religion, and demands, in the name of humanity, that she be legally murdered.

"The sin against my fellow-citizens will not be in having put me to death," declares Mrs. Harris, "but, in the final reckoning, it will be in having let me live—in condemning me for the rest of my years to the most horrible torture in this world—a LIVING DEATH!"

"Euthanasia" is the scientific name for the thing which Mrs. Harris demands of us. This comprehends the painless putting to death of any incurable and, from an ethical and scientific standpoint, been theoretically attacked and defended ever since the founding of medical practice centuries ago.

Mrs. Harris is the first woman, so far as is known, to demand publicly that this mooted principle be made actually operative upon her life.

"People would not stand aghast at what I entreat did they realize one-fifth of what I have suffered, do suffer and what I shall suffer. They would demand that legislation be enacted

save those of my neck. I can talk and see."

"My sole longing is for the peace of the grave, where I could sink into blessed sleep—a thing I have not known for three whole months!"

"If I were ordinarily paralyzed I should not demand death. I would have no feeling with that sort of disease and could bear with it. But my ailment is different. It has attacked the muscles. They are rotting away. This works hardship on the nerves, which gradually become uncovered. And all over my body these bare nerves jump like those in an aching tooth."

"The REAL feeling of the people of this country was illustrated in the approval of the acquittal in the murder trial of the Snaker in Florida, who helped a sister when she begged him to end her incurable miseries."

"Lately I read of the acquittal of a man in France who shot his wife, ill of

cancer, when she pleaded with him to do it if he really loved her. All France received the verdict with satisfaction."

"These instances show that the majority does not abhor death to relieve suffering. I cannot believe doctors are unlike others in their sympathy, but that chimera, 'Professional ethics,' seems to constitute the chief barrier to a practical euthanasia law."

"Let me emphasize my cheerful willingness to submit to every test science can devise, for I would want to live if possible. But when a patient, like myself, whose mind has not been dimmed by the suffering of the body, calls for such a test, and will rejoice above all others if it brings health, the alternative of painless death at the hands of those who know how to administer it ought not to be denied if the test confirms the belief that the case is, as we already know, incurable."

"Now, in the fourth year of my awful agony, I ask every man and woman in the United States:

"Ought I not to be legally put out of my never-ceasing misery?"

"I await the judgment of the people."

able to move a single muscle of her body, except those of her face and neck. She knows that she will always be helpless, and always in pain. And so she challenges medical and legal ethics, and the teachings of religion, and demands, in the name of humanity, that she be legally murdered.

THE RURODE DRY GOODS COMPANY

report on the Bierly bill providing for the election of county superintendents by the vote of the people instead of by the township trustees. The majority report favors indefinite postponement.

The Jenkins' bill providing for free text books will be recommended for indefinite postponement. Action on the Stahl vocational bill was deferred until the committee is informed as to the official who is to fix the salary of the county agent of agriculture established under the proposed legislation.

The committee on railroads considered six bills, deciding in favor of the Dickinson bill to prohibit the placing of cars between locomotives when two or more engines are used and recommending indefinite postponement on the Norris bill requiring interurban companies to post notices as to whether trains are on time or not; the Dunmore measure to compel railroads to establish gates and guards at private crossings and the Carroll bill to force railroads to stop four trains a day at towns of 1,000 population.

Aut Saining Bill.
The committee on rights and privileges will report favorably on the Aut bill, permitting seining in streams between July 1 and August 31, and will recommend indefinite postponement on the XIX bill proposing a closed season on quail for three years, and the Bierly measure asking a display of the American flag at registration and election places.

Indefinite postponement of Senator Stotzenburg's bill requiring members of the boards of county commissioners to give \$10,000 bond will be returned by senate committee on county and township business, as a result of a conference today. The members believed that since the commissioners did not have to handle money directly and because of the malfeasance in office law, that there was enough protection. A favorable report will be made by the same committee on Senator Fleming's bill giving counties containing from 90,000 to 150,000 inhabitants the right to condemn land to obtain sand, gravel and stone.

Further hearing will be given senate judiciary committee A., on the bill providing for the election of county superintendents by the vote of the people instead of by the township trustees.

Beware of Ointments for Catarrh

That Contain Mercury

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Chase & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In treating Hall's Catarrh Cure he cures you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Chase & Co. Beware of cheap imitations.

Sold by Druggists. Price, 25c per bottle. Take Hall's Family Pills for constipation.

Senator Stotzenburg providing that objections to instructions to the jury be argued before the jurors retire.

Got Away Quickly.
The senate committee having in charge the Stotzenburg bill granting school franchises to women met yesterday afternoon to discuss the measure. At the same time two organizations of women, one opposing the measure, the other supporting it, arrived at the committee room. They also wished to discuss the merits and faults of the bill. They did though when they arrived the bill had been withdrawn by its author, who announced he believed the women of the state did not wish school franchises.

The women not to be denied presenting their arguments, succeeded in having Senator Clarke, chairman of the committee, reconvene the session and twenty minutes was allowed to each side. From one faction came enthusiastic praise of the measure; the other denounced it. This faction wanted to be granted the privilege of participating in municipal elections. "Let us choose the officers of the law," beseeched their spokesmen.

The talking became general and the leaders of the two factions of women joined.

"The committee stands adjourned," announced Mr. Clarke. "We thank you for your entertainment and leave Senator Stotzenburg to your mercy."

Those members of the committee who could elude the visitors immediately departed.

Ball and pedro party, French-American society, at Minuet hall, Wednesday, January 29, 1913. Admission, 25 cents.

NEW DAIRY COMPANY

Will Erect New Building at Main and Fulton Streets.

The Maumee Dairy company, successors to the Collins Ice Cream company, has been organized here, and a building costing in the neighborhood of \$27,000 will shortly be erected at the northwest corner of Main and Fulton streets. The company is composed of the following: President, J. E. Brown; vice president, Samuel Schlosberg; secretary, O. E. Mertz; treasurer and manager, E. A. Smith.

The new three story building will be completed and ready for occupancy by the first of May. Besides putting out its old product, the Collins' ice cream, the concern will manufacture dairy products of all kinds. The basement will be used to manufacture artificial ice.

Society

The members of the Thursday Afternoon Shakespeare club held a social meeting today at the home of Miss Helen O'Rourke, of Washington boulevard east, that was as merry a party of picnickers as it would be in June in a shady grove. This was a winter picnic and every one of the twenty members of the club had something to do with the bountiful and delicious menu of good things served about half past 1 o'clock. Miss O'Rourke had very effective and pretty decorations of red, white and blue candles and festoonings which added to the charm of the affair. After the picnic luncheon there were several interesting numbers of entertainment. Mrs. W. M. Leonard and Miss O'Rourke sang, Mrs. H. V. Blosser played piano selections and Mrs. B. A. Blosser recited.

Miss Ethel Grand and a number of her intimate girl friends spent the afternoon with Miss Margaret Wing, of West Creighton avenue today and enjoyed a visit over their sewing. Miss Wing served a luncheon that was delectable and the company showered Miss Grand with pretty gifts.

Miss Helen Peters has returned from a three weeks' visit with her sister, Mrs. Philip Bursley, of Ann Arbor, Mich.

Miss Aline Vail has returned from a few days' visit in Warsaw with friends there.

Miss Ruth Parker, of Hillsdale, Mich., is visiting Mrs. Van B. Perrine, of West Berry street.

Miss Grace Kerlin, of Logansport, is visiting her brother and his wife, Mr. and Mrs. S. B. Kerlin, for a few days.

Miss Louise Dunbar is in the city for a few days' visit with her mother, who lives at the Hamilton house.

The annual ball of the International Business college will be held in Harker's hall on Thursday evening.

Mr. and Mrs. Osmond L. Wright, of Lake avenue, have as their guests Mr. and Mrs. Amos J. Wright, of Richmond, Va.

Mr. and Mrs. Arthur Rose, of the Portland apartments, will soon be at home with Mrs. Rose's parents, Mr. and Mrs. Louis Cordes.

Mrs. Norman Olds and children, who live in Berkeley, Cal., are coming east soon to visit her parents, Mr. and Mrs. J. O. Hull.

Mrs. Frank Greenwell, of Huntington, is the guest today of Mrs. Corn Hunter and was the visiting guest at the meeting of an auction bridge club with Mrs. E. F. Sites.

Mrs. Dorothea Meyer moved today from her home in West Wayne street, where she has lived for many years, to the Randall hotel, where she will remain until further plans mature.

Mr. and Mrs. H. G. Weaver, of Davenport, Iowa, are in the city visiting friends and relatives. Mr. Weaver formerly lived here, but is now in the shoe business in Davenport.

A change will be made in the meeting place of the college club on Friday afternoon from that named in an earlier announcement. Mrs. Clinton Willson, 2426 Highland avenue, will be hostess instead of Mrs. Levy.

Miss Aimee O'Neil, of Chicago, spent the week-end here with Mr. and Mrs. E. T. Wood, of West Creighton avenue.

Miss O'Neil is a talented violinist and will leave very soon for Berlin, Germany, to continue her musical studies.

Mr. and Mrs. Jacob Shaffer, of the Leesburg road, entertained a company of young people on Sunday evening and at the time announced the marriage of their daughter, Ethel, to Harry Sutton as having taken place in Michigan last August.

Elmer Weil was host for a stag dinner party of friends at his home in West Wayne street last evening. Pink roses and pink shaded candles formed a pretty decoration of the elegantly appointed table.

Mrs. William Floring, jr., of 835 West Jefferson street, gave a dinner party last evening in honor of her guests, Mr. and Mrs. William Floring, of Lagrange, and Mr. and Mrs. David Walters. The company spent a very pleasant time.

Mr. and Mrs. Frank L. Smock leave today for a six weeks' trip. They will sail on Saturday from New York on board the Cincinnati for Panama, with stops at Porto Rico, Cuba and other points.

An informal party which the guests enjoyed very much was given by Miss Pauline Leoser in honor of Mrs. Charles Liebermeyer, of Baltimore, Md., who is visiting her mother, Mrs. Susanna Sibley, of State street, and other relatives. The guests spent the evening and enjoyed among other things a delicious supper.

Mrs. Louis Corns, of Huntington, entertained at dinner last evening the members of a club to which she has belonged for several years. The club members all live here, but additional guests were Mrs. Mary Randall Walker, of Avilla, and Carl Baker, of Kendallville.

After dinner cards were enjoyed. Mr. and Mrs. F. H. Light, of Ansonia, Ohio, arrived in the city recently to visit their daughter, Mrs. Helen Eckenrode, of 1415 Ewing street. Mr. Light has gone to South Charleston and Springfield, Ohio, to visit a son and in the interest of their newspaper work in the latter city, and Mrs. Light will remain here for several weeks.

Mrs. Mary Squires, of 1837 Spring street, gave the second recital of her piano pupils on Sunday afternoon. The parents and friends were present, and after the program Mrs. Squires served refreshments with the assistance of her little daughter, Elizabeth Ann. The pupils taking part were those of the primary and intermediate departments of work and were Pauline Rydler, Robert Evans, Willis Boren, John Berthel, Carl Hohnhaus, Josephine Taylor, Agnes Strause, Elizabeth Ludwig, Allegra Lovett, Maude Shaffer, Martha Finger, Blanche Evans, Ida Butler, Dorothy Coleman, Naomi Webster, Mabel Bilcher, Irene Turner, Mrs. Emmet Young and Mrs. Cyrus Rydler.

To Form Oratorio Society. A number of well known musicians of the city are interesting themselves in advancing music in Fort Wayne by the organizing of an oratorio society. Believing that no more powerful stimulant of vocal conditions can be established than a good choir of mixed voices, Mrs. Clara Zollars Bond, Prof. William Miles, Frank E. Stouder, Wil-

son, and one may be sure that the

manor of experiments were tried, but raw starch remained in the bread.

Finally Mrs. Sharpless got a "hunch" from the way a paper hanger mixed his flour for paste.

She mixed her flour, water, yeast, etc., as quickly and lightly as possible. Then she set it aside to "raise."

When the mixture was "raised" she did not knead it. She merely shaped it into loaves quickly and deftly, with as little handling as possible.

Then she baked it in the usual way. And the bread showed 90 per cent of the starch granules broken up—gelatinized—cooked!

Moreover, its nutritive value was doubled—every loaf had the nourishing power of two of the old loaves.

Samples were submitted to physicians and scientists. They couldn't believe what had been accomplished. Dr. James McAllister, president of the Drexel institute, stamped it a wonderful discovery, as did Professor Reichert, of the University of Pennsylvania, and Dr. S. Weir Mitchell, the author and specialist, who is one of the greatest physicians in the world.

There is no secret about it. Mrs. Sharpless wants everybody to know how it is done. Just do it quickly and don't knead it. The whole idea is to disturb the dough as little as possible.

It may be mixed by hand, or with a machine. In the mixing of her early batches Mrs. Sharpless used her hands. Then to make two or three loaves at once, she used a mixer consisting of an old rolling pin which she fitted up with a series of knives and placed over a mixing bowl. The rolling pin was turned with a crank and the knives thoroughly and quickly mixed the flour with the other ingredients.

The bread is not as pretty and white as ordinary bread. But it is real bread! And Mrs. Sharpless' invalid husband tested so carefully that the heat didn't cook them or break them open. All

was gathered in small cells, hundreds of them in a cell. They became coated with gluten, a gelatinous substance which formed the cells, and were protected so carefully that the heat didn't cook them or break them open. All

YOU NEED NOT BE OLD NOR MARRIED TO KNOW LOVE—SAYS BILLIE BURKE.

(BY BILLIE BURKE.)

I tell you I am sure at least of one good time each day.

Every morning when my secretary opens my mail she lays aside the letters which are more humorous or interesting than others, and we go over them very carefully.

Yesterday a man said to me, "What do you know about love, my dear Billie? You are very young. At least you look so to me. You have never been married and I have never been a rumormonger of an engagement. Aren't you taking a good deal upon yourself to advise lovers when, from experience, you know nothing about the tender passion?"

One does not need to be old nor married to know about love. Every man, woman and child in the universe must know about it as soon as they know anything. Some, alas! only know it because they miss it, for love is the only thing that makes life worth living, the only civilizing instinct that we human beings know.

LOVE IS EVERYWHERE: we see it in the budding flowers and the stars of heaven; and death in life has come to us if we cannot feel it.

LOVE CLASPS the mother's breast with baby fingers.

LOVE BRUSHES the cheek of youth with sweet caresses.

LOVE ILLUMINES the rugged face of Lincoln as he affixed his name to the paper that liberated the souls of four million people from the bonds of slavery.

LOVE CAME to Joan of Arc and straight away she followed with steps that did not falter, whether they led to the victor's crown at Orleans or the burning stake at Rheims.

LOVE TOUCHED the pen of Shakespeare and set the whole world of poetic fancy ablaze with rose and gold.

LOVE SANG in the ear of Mozart and music trembled down time's pathway.

LOVE HESTED for a moment beside the canvas of Raphael and left behind the semblance of motherhood divine.

LOVE SILENCED the cruel, raucous tongues of the beasts in Rome's arena, for, in the ears of the dying martyrs, still echoed the words of the Greatest Lover of All, when his brimming cup of sorrow overflowed, still loved so much that He could lift His face to heaven and whisper:

"Father, forgive them; they know not what they do."

ham Ralston, Dr. Gaylord M. Leslie and George Baillie have set themselves to work to organize such. Self development and familiarity with the noted compositions and the elevation of vocal standards generally are the objects in forming the society. Every singer in the city interested is invited to attend the first meeting, which will be held next Saturday evening at the European School of Music, third floor of the Old National bank building, at 8 o'clock.

Symphony Orchestra Concert.

Schubert's "Unfinished Symphony" is one of the beautiful works that the Fort Wayne Symphony orchestra is going to play at its concert at the Majestic theater next Monday evening. That goes to show how serious in the study these amateurs are giving to their rehearsals. The orchestra will also play selections from "Cavalleria Rusticana" and "Carmen" and one may be sure that the

MISS BILLIE BURKE.

AT THE MAJESTIC.

Tonight—Maude Adams in "Peter Pan." There is probably no event this season that has awakened more interest and been looked forward to with more pleasure than the appearance tonight of Maude Adams in J. M. Barrie's fairy play, "Peter Pan," at the Majestic tonight. The desire to see the actress has been such that Miss Adams and her supporting company are certain to be greeted by an audience that will crowd the theater from pit to dome. It is nine years since Barrie's play was first made known and its success has been out of the ordinary. It is a work full of charm and imagination with the wonderful power of bringing the adult back to childhood while in the theater and under its spell. Every man has been a Peter Pan in his youth and had many an imaginary struggle with Indians and pirates. As Peter Pan Miss Adams is the embodiment of youth and joy and happiness. The play is elaborately staged and perfect in details. It is charmingly atmospheric. The opening scene shows the nursery of the Darlings. The second shows the woods with the house the fairies built for Wendy. The third is laid in Peter's underground cave. The fourth is laid on the deck of a pirate ship, and the final scene shows Peter's house in the tree tops. Miss Adams' company is made up of prominent players.

Blanche Ring in "The Wall Street Girl"—Seat Sale Tomorrow.

Blanche Ring, with her charming smile, her magnetic personality and her inimitable manner of singing songs, comes to the Majestic Saturday, Feb. 1, matinee and night, in "The Wall Street Girl," a new musical comedy in which she has scored the most distinct hit of her career. In her new vehicle Miss Ring was given a greater opportunity to display her ability as a comedienne than she has had at any time in the past.

"The Wall Street Girl" can boast of excellent parentage. The book is by Margaret Mayo, author of "Baby Mine," and Edgar Selwyn, who wrote "The Country Boy." Haggood Hurt is responsible for the lyrics, while Karl Hoschna, of "Madame Sherry" fame, composed the music. Miss Ring plays the title role of Jennie Greene, daughter of a Wall Street broker. Her father, being disappointed in not having a son, brings her up in mannish fashion. She enters his Wall street office and is soon deeply engrossed in high finance.

When Dexter Barton arrives in New York direct from Nevada, with a gold mining proposition to sell, he is turned down good and hard by Mr. Greene. Jimmy, however, feels that the gold mine is the real article and takes a half interest, much to her father's displeasure. Not only does Jimmy become interested in the gold mine, but she becomes ever more so in Mr. Barton. She gives up her mannish wearing apparel and adopts all the fluffs and flounces of her sex. How the gold mine saves Mr. Barton from financial failure and how Jimmy loses her heart to the westerner, are cleverly worked out by the playwrights.

AT THE TEMPLE.

Again the Temple vaudeville management is in luck. And again there is a dandy bill of entertainment running from the beautiful in art to the screaming kind of a laugh-maker. There's lots of variety, too, and all in all the bill shows you many unexpected things with everything attractive and interesting. And it all starts out with unusually pretty music by the orchestra. A man with a flute is an addition. Sometimes he plays another instrument. Really, the music was so pretty people forgot to read what the announcements of the Gaumont Weekly news budget were saying. Of course this is incidental, but everything helps to make a good show an A No. 1.

One of the most beautiful acts ever seen here in vaudeville is the Jacobs and Slattery production of living models in famous paintings. The coloring and lighting is lovely. There are nine pictures in all and each is charming. The matinee audience gave frequent applause. Find anything more critical than a Monday afternoon audience at the Temple, if you can, especially of quiet things.

John Clinton and Bobbie Nolan present a "hit." Nolan is the one that gets hit. But the act is new, noisy and entertaining. It's all right. Herbert Hodge and Mildred Lowell have something new they call "Cupid's Mistake." Mr. Hodge is clever enough, but he would

That Peculiar Lightness and Flavor

Noticed in the finest biscuit, rolls, cake, etc., is due to the absolute purity and the accurate combination of the ingredients of the ROYAL BAKING POWDER. The best things in cookery are always made and can be most readily made with the ROYAL BAKING POWDER. Hence its use is demanded in the most celebrated restaurants, in the homes of the people, wherever delicious, wholesome food is appreciated. Its sale and use extend to every civilized country in the world.

The only Baking Powder made from Royal Grape Cream of Tartar

NO ALUM NO LIME PHOSPHATES

he cleverer if he wouldn't be quite so much of a "silly." Miss Lowell is unusually attractive in appearance and her old-fashioned costume in the latter part of the act is one of the best things ever shown in the city. The act is very good, but Miss Lowell's youth and charm are unmistakable and she makes the particular hit.

The number that makes the audience double up with laughing is the "Rained In," a one-act playlet by Leroy, Harvey and Company. After you leave the theater you may wonder why you laughed so much, but if you go the second time you'll repeat your previous performance. It is surely a "scream."

Another well dressed act by two clever people is "A Little Bit of English" by Patterson and West. This is a finished performance in caricature. The English dude is taken off in great style by Mr. Patterson, while Miss West keeps up the Yankee girl's reputation for good looks, pretty and tasteful dressing and general attractiveness. The act is particularly

up-to-date and Mr. Patterson's burlesquing is tip-top. As if this wasn't enough Charters and Holliday Co. present a musical comedietta in three elaborate scenes in which pretty girls dance beautifully, while the entire act presents a scenic equipment that is very pretty.

LAWTON CAMP INSTALLS.

Lawton camp, No. 3, United Spanish War Veterans, in regular session Monday night at its quarters in the Lincoln National Life building, installed officers as follows:

Commander, A. J. Zuber; senior vice commander, Henry Geyer; junior vice commander, George Ehrman; officer of the day, John Jones; officer of the guard, William D. C. Rayer; trustee, Frank Sherbundy; chaplain, Joseph Donli; quartermaster sergeant, Everett Cook; sergeant major, James Morrie; color sergeants, James C. Burkhead and William Hagerty.

A Demand for Pure Food

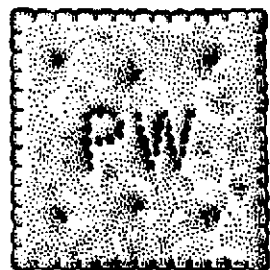

When the youngster of the family wants anything to eat he wants it at once!

And you want him to have the best there is.

Well, give him crackers and milk. You simply couldn't find a better meal anywhere.

Be sure the milk is clean, and be sure the crackers are

Perfection Wafers Clean Healthful

Then you can let the youngster eat as much as he likes without fear of hurting him.

Perfection Wafers are crisp, delightful, dainty crackers. Particular people who know about them insist on Perfection Wafers.

AT YOUR OWN GROCERS' PERFECTION BISCUIT COMPANY FORT WAYNE, IND.

AMERICAN WOMAN MAKES WONDERFUL BREAD DISCOVERY IN HER KITCHEN—DO IT QUICKLY AND DON'T KNEAD IT IS THE SECRET.

WHY NEW DISCOVERY IS OF TREMENDOUS VALUE TO THE WORLD

By Dr. Edward Tyson Reichert, Professor of Psychology in the University of Pennsylvania.

Bread is one of the chief causes of all digestive troubles. Intestinal fermentation and the poisons born of such a condition cause no end of illness, especially among children. Few people ever think of bread as being the offender; yet the raw starch grains are there, and they are almost sure to cause trouble.

In the average wheat bread, no matter how carefully made, 90 per cent of the starch grains are raw. I have had Mrs. Sharpless' bread tested in my laboratory, and found that in her bread 90 per cent of the starch grains are broken up, transformed into gelatine and made digestible.

It is a most important discovery. The use of this bread in place of the ordinary kind ought to bring about a notable diminution in disturbances of the digestive organs and the intestinal tract.

By Albert F. Ferguson.

Philadelphia, Pa., Jan. 26.—The announcement is made today of a wonderful discovery in chemistry.

The chemistry in this discovery is breadbaking; the chemist is a woman, and her laboratory was her own kitchen.

I came to Philadelphia to learn what I could about this new way of baking bread so that I might tell you and your neighbor the why and the how and all about it, just as the scientific sharks are preparing to tell the world of science about it.

There seems to be no doubt that Mrs. Lydia Conle Sharpless is the first person in the world, man or woman, who ever knew how to make bread as it ought to be made.

That seems like a big statement, for we have been bread-making for many thousands of years, and every woman who bakes is positive that she knows just how to do it, and that her bread is good and wholesome.

But Mrs. Sharpless has proved that every method used is wrong. For the one thing that every woman thinks is essential to good bread-making is the thing she must avoid—the bread must not be kneaded.

And as for wholesomeness—the bread that mother used to make was deadly to anyone whose digestion was not good.

Mother didn't know how to make bread. Wife didn't know, the doctors didn't know. And the doctors admitted it.

Love and wisely devotion led Mrs.

Sharpless to make the great discovery.

Her husband became very ill. He was a great bread eater. The doctor forbade it.

"Why?" asked Mrs. Sharpless. "I bake it myself."

The doctor smiled. "All bread is dangerous. There isn't a loaf baked that is fit to put in a human stomach unless that stomach is unusually strong," he said.

"But why?"

"Because of the raw starch it contains. Raw starch in bread is bad. To hosts of people it is deadly. And 90 per cent of the starch in your bread is raw."

Then Mrs. Sharpless began to study. She read everything there was in Philadelphia on bread and wheat. Then she went to Boston and exhausted the capacity of the great public library there. She studied chemistry, and examined all kinds of bread and flour under the microscope. Ten years of the hardest sort of work she put in on the problem.

She found that in the ordinary processes of making bread the minute granules of starch in the wheat flour

WHY WOMEN SUFFER

Many Fort Wayne Women Are Learning the Cause.

Women often suffer, not knowing the cause. Backache, headache, dizziness, nervousness, irregular urinary passages, weakness, languor—Each a torture of itself. Together hint at weakened kidneys. Strike at the root—get to the cause. No other remedy more highly endorsed than Doan's Kidney Pills. Recommended by thousands—Endorsed at home. Here's convincing testimony from a Fort Wayne citizen.

Mrs. A. Smead, 1010 High St., Fort Wayne, Ind., says: "Last summer I used several boxes of Doan's Kidney Pills and they did me more good than any other kidney medicine I had ever used. My kidneys were weak and the trouble affected my luck. Doan's Kidney Pills cured me and since then I haven't had any trouble. I advise anyone who has kidney complaint to use Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. —Adv.

AGED WOMAN SUPPORTS NIECE.

Centenarian Says She'll Work as Long as She Lives.

Pittsburg, Pa., Jan. 28.—"You are the most distinguished visitor this court has ever had," said Judge McKenna in desertion court as he grasped the hand of "Auntie" Morgan, aged 101 years, of McKeesport. "I don't remember ever having the pleasure of talking to a person 101 years old."

"Everybody thinks it's funny about me," said "Auntie." "Why, my mother lived to be 111 and my father 112. That was over in Wales. I was born there."

It was testified that the old woman actually supported her niece, who is not strong enough to work. The niece, aged 28 years, was in court asking an order that her husband be compelled to pay her \$5 a week, as had been decreed by the court two years ago. Sidney Fleming, the husband, was committed to jail in default of bond.

"Sure, I work," said "Auntie." "People have to work as long as they live. I knit and do fine needlework. I sew for people, darn socks and mend clothes. As long as there's breath in this old body I'll work to keep this little girl. By the help of God, I'll not let her suffer."

HYOMEL will end CATARRH

You've Tried Ointments, Sprays and Douches and Failed, Now Breathe This Balsamic, Germ Destroying Air.

Why bother with makeshifts? Booth's HYOMEL has cured thousands upon thousands of acute and chronic cases of catarrh without stomach dosing.

It will cure you if you are liberal enough to give it a chance. If you could afford the time and the expense of a visit to the Eucalyptus forests of inland Australia you could soon get rid of catarrh.

Booth's HYOMEL brings to your home the same pleasant healing germ destroying air that you would breathe in inland Australia. A complete HYOMEL outfit is \$1.00 and extra bottles, if later needed, are 50 cents. The little booklet in outfit gives simple instructions for use and also explains the HYOMEL vapor treatment which many use in conjunction with the inhaler with wonderful results.

All Pharmacists worthy the name sell Booth's HYOMEL. If a dealer is not convenient, mail orders will be filled, charges prepaid, by Booth's HYOMEL Co., Buffalo, N. Y. Meyer Bros. Co. guarantee it.—Adv.

When You Buy a Saw Buy a Good One

A poor tool is a poor bargain at any price. It won't do the work. For only a little more than you pay for a cheap saw you could buy an

ATKINS SAW

Here's a saw that won't make you mad when you use it. You'll find it sharp, easy running and fast cutting. Made of **STEEL-STEEL**—better steel than you'll find in most saws. The blade is so tapered that it doesn't bind in the wood. That's the kind of a tool you want, and it costs, as a rule, only a little more than the "bargain" kind. Come in and see our line of really good tools. It's one of our specialties.

WANT TO MAKE FACES AT HIGH COST OF LIVING? THEN MAKE YOUR BAC KYARD WORK, SAYS CALIFORNIA WOMAN.

MRS. TEDRICK AND HER 96 POINT FIRST PRIZE BLACK ORPINGTON HEN, BLACK BEAUTY.

Can you pay the high cost of living for your household every year and clear \$500 besides off your back yard? Mrs. Elizabeth Tedrick of Fruitvale, Cal., says she can. She ought to know because she does it. On a lot 75x187 feet she has her dwelling, flower garden and lawn, berry patch, vegetable garden, rabbit hutch and model chicken ranch, off which she derives an annual income of \$800.

Here's how she does it: She raises "pedigreed" stuff. Everything about the premises except the gasoline pump that irrigates the place has a pedigree. Everything is highly intensified. Last year she hatched and sold 35,000 baby chicks, and this year

the number will run higher. This is called "custom work" by chicken raisers. Customers bring the eggs and Mrs. Tedrick does the hatching. Her basement is filled with incubators that have a capacity of 5,000 eggs.

Mrs. Tedrick specializes on Black Orpingtons and White Orpingtons. Golden Campines and Silver Campines—all of which are chickens—and the most profitable breeds in the business. Blooded Campine eggs bring from \$5 to \$15 a dozen and the hens are famous layers. Orpington eggs go from \$3 to \$25, so you see the goose that laid the golden egg hasn't got very much on these birds. In the market, Orpingtons sell for 35 cents a pound—10 cents more

than ordinary chickens. Mrs. Tedrick sells all her eggs for a dollar apiece—that's because they are from pedigreed birds.

Last year from four White Orpington hens and a cock, Mrs. Tedrick sold 76 chicks at a dollar apiece and five settings of eggs at \$10 a setting. Just figure out what she could have done with a couple of thousand of these birds.

Most everything on the Tedrick place is secondary to the chicken business; or rather, it is because of the chicken business. Mrs. Tedrick sells \$40 worth of berries annually off vines that she planted to shade her chicken runs. The vegetables that she has on her table come from the patch that is planted for her chickens. The Belgium hare business seems to be the only thing that is decidedly a side issue. Her pedigreed bucks bring as high as \$5 apiece.

"When I first began," said Mrs. Tedrick, "it took a lot of hard work, but I enjoyed every minute of it. I built my first run with my own hands. I have been at it two years and a half and expect to put in a good many years more. Any housewife with a willingness to work and a fertile plot of ground the size of my lot, can accomplish as much as I have. There is nothing wonderful in what I have done."

CUT THE HIGH COST OF LIVING.

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 2-c bottle of Foley's Honey and Tar Compound." A mean stuffy cold, with hoarse wheezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions, but take Foley's Honey and Tar Compound promptly. Contains no opiates. Dreier Drug Co.—Adv.

RICH STRIKE IN OLD MINE.

Valuable Ore Taken From Workings Long Considered Worthless.

Cripple Creek, Col., Jan. 28.—L. B. Roberts, leasing on the old Victor mine, on Bull Cliff, has made a big strike at a depth of 600 feet, where he has opened an entirely new ore shoot seven feet in width, which averages easily \$75 to the ton.

The vein has only been opened a short distance, but the ore is improving in value with every round of shots, and the ore body is getting wider steadily.

The find promises to be one of the best, both for average values and tonnage, which has been developed during the last few months.

It was not so very long ago that leasers generally could scarcely be induced to examine the Victor workings, much less to take a lease contract under the most liberal terms, popular impression several years ago being that the property was practically worked out.

O. N. Guldin, of the Western Gas Construction company, has gone to Pittsburgh for a couple of days, looking after business.

LOSING YOUR HAIR?

Read What a Herculicide Enthusiast Says

You are becoming bald. The hair is getting thin on the top of your head and unless you take my advice you will before long be as hairless as a croquet ball. Remember too that chronic baldness is incurable.

It is all due to dandruff. I can tell, because you always have dandruff flakes on your coat collar. Besides being an indication of impending baldness, it also suggests untidiness.

Newbro's Herculicide will kill the germ that causes dandruff, checks further accumulation of scaly skin and stops falling hair.

You are not taking any chances when you purchase Herculicide and you are tempting fate when you use anything else. Herculicide has thousands upon thousands of satisfied users who testify to its germ destroying and hair preserving qualities.

Newbro's Herculicide in 50c and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

The best barbers recommend and use it.

Send 10c in postage to The Herculicide Co., Dept. R, Detroit, Mich., for sample and booklet. Bradley Bros., Special Agents.—Adv.

RABBIT TO SOLVE LIVING PROBLEM

Bunny Offered as Sacrifice on Altar of High Costs.

AND IS ACCEPTED

Pittsburg, Jan. 28.—In the presence of the discussion of the high cost of living the organization of marketing clubs, with multifarious experiments for reduction of the household expense without reduction of the household stomach, it is well worthy of note that more attention than ever in the world before is being given to the breeding of rabbits. Some of the women who have been giving scientific study to the problem of domestic expenses in Pittsburg, and find at all necessary on account of any financial stress, but solely as a study, have said that many of the poor and of those in straitened circumstances much in the way of relief from high prices might be accomplished by the breeding of rabbits.

Something of this has doubtless been inspired by a report of the British Board of Agriculture, which has declared that aside from use for food \$25 a year profit can be made from each of a pen of hot water (or white) rabbits, and adding two teaspoonfuls of glycerine. This lotion will whiten and beautify your skin and take away that coarse, muddy look you have. This is much better than face powder, as it does not show on the skin, and will not rub off easily like the powder does when you wear a veil. The glycerine lotion is inexpensive and will do to any shadow, oily skin a pinkish, youthful appearance. It is fine for cold sores, chapped lips and as a protection to the face against harsh winds and changes of weather. I am sure you will like this glycerine lotion very much.

Can Readily Be Done.

In any sort of garden or little yard, it states, a herd of rabbits may be maintained. The cost of maintenance is next to nothing. An expert of the board said that 2 cents a week would keep a rabbit in luxury. A bit of oats, a few cabbage leaves or other greens worthless for table use would do the business. The does will produce four litters a year, and 10 does, which need only an inconsiderable space, will in the course of a season produce 200 young, which are ready for the market and the table at the age of 10 weeks.

This matter has been brought to the attention of Americans time and again by individuals and societies, but it has never been brought in so formal a way and by so important a body as the Board of Agriculture of Great Britain. "Bonds" are imposing bodies in that country, and their dictum on rabbits will come home to all homes of the world, and it is common sense to "stop, look and listen," as they say at the railway crossings.

One of the pronouncements is that rabbits can be maintained in smaller space and much cheaper than fowls, and that they are much less liable to disease. One expert breeder in this limited space gives figures that are almost beyond belief. The little animals were of blue blood. Ten does cost \$12.50. Two bucks cost \$2.50. The feeding cost 2 cents per week each. The net profit from this backyard farm amounted to \$30 in animals and skins, and there was a considerable slaughter for the home table, the product being in round number 200 rabbits.

There you are for a part, and a peo-

ple part, of the solution of the problem of the low cost of living. It is worthy the attention of the economist, the philosopher, the animalist, the student of all human affairs in this day of intensity, and the marketing clubs of Pittsburg may well make a note of it all. The "learnless, necessary eat" of Shakespeare may well be displaced by the harmless, necessary rabbit.

It is stated in the report of the Board of Agriculture that Belgium, where the greatest rabbits are bred, exported to England in 1911, 42,500 weight of rabbit meat, and that altogether from all sources 25,000,000 rabbits are imported yearly into England. This has led to a deeper study of the rabbit industry, and the interest has extended to this country and to Pittsburg. Why it is that the center of the best breeding should be in Belgium is not fully explained, but the fact remains that the Belgian Hare and the Flemish Giant are of the finest breed and that Great Britain and America are beginning to import them for breeding purposes in the new industry which makes for the lower cost of living in so far as flesh is concerned.

Henry C. Paul, president of the Old National bank, is confined to his home with an attack of la grippe.

HOLDS PROXY FOR STORK.

New Britain Physician Returned 249 Birth Certificates in 1912.

New Britain, Conn., Jan. 28.—The answer in New Britain now to the question where the new baby sister or brother came from is invariably, "Dr. Bray brought it. Wasn't he nice?"

For several years Dr. Henry T. Bray, New Britain's health officer, has broken all records for birth certificates returned. He is certain he holds the championship of Connecticut. Last year was his record breaker. The birth certificates he has returned show he held the stork's proxy in 249 cases. In February's twenty-nine days he returned thirty certificates.

DOGS' SKIN ON BOYS' LEGS.

Puppies Killed to Secure Stomach Linings for Grafting Operation.

St. Louis, Jan. 28.—The skin from the stomachs of eight puppies has been grafted on the legs of Ralph Keris, a 7-year-old boy of this city, who was burned recently when his clothing caught fire. The greater part of the injuries are now covered, but five more dogs will be sacrificed to provide skin.

Health and Beauty Helps

BY MRS. MAE MARTYN.

Mias E. R.: A lotion that will help your red hands, chapped lips and make permanently can be made by dissolving four ounces of aquapum in one-half pint of hot water (or witch hazel) and adding two teaspoonfuls of glycerine. This lotion will whiten and beautify your skin and take away that coarse, muddy look you have. This is much better than face powder, as it does not show on the skin, and will not rub off easily like the powder does when you wear a veil. The glycerine lotion is inexpensive and will do to any shadow, oily skin a pinkish, youthful appearance. It is fine for cold sores, chapped lips and as a protection to the face against harsh winds and changes of weather. I am sure you will like this glycerine lotion very much.

Virginia: Lack of exercise and eating too much solid food during the summer months account for your sallow, pimply complexion and loss of energy. What you need is a reliable system-tonic and blood purifier. Try this: Dissolve an ounce of Eucalypti in a half-pint of alcohol (not whisky), adding one-half cupful of sugar and hot water to make a full quart. Take a tablespoonful before each meal and in a short time you will feel like a new person. It will give you rich, red blood, fill you with energy and put the color and look of health into your face.

Sylvia: Never wash your hair with soap. The "free" alkali in soap is injurious to the hair, and in time will eat the very life out of it, causing your hair to become straggly and fall out. For a really good shampoo, simply dissolve a teaspoonful of catnip in a cup of hot water. Shampoo and rinse with clear water. This shampoo lathers abundantly, removes all dirt, dandruff and excess oil, and will leave your hair soft, glossy and fluffy. This shampoo dries so quickly that it makes shampooing a real pleasure. After using it once you will imagine you have twice as much hair as you ever had before. This is the shampoo now used by many of the best hair dressers. After shampooing an application of a quinine hair-tonic (see answer to "Alma") will prove very invigorating and refreshing to your scalp.

Kate: (a) Reducing your weight without plenty of exercising and dieting may appear quite difficult, but I have a formula that has worked wonders where other remedies have failed. Put four ounces of parrot in 1 1/2 pints hot water.

When cold strain out the sediment and take a tablespoonful of the liquid before each meal. It is a harmless remedy and leaves the skin free from flabbiness. (b) To make your eyes bright and healthy two crystals eye tonic regularly. It is sold by all druggists.

Daisy: I can recommend dandruff for bathing hair or face because it really does the work. To remove those hairs apply a paste made with dandruff and water and after two or three minutes rub off, wash the skin and you will find it smooth and hairless. No possible harm results from using dandruff.

Young Wife: Artificial aids for underdevelopment foot no one but the wearer. Food the starved, shrunken tissues and your foot will soon assume its correct proportions. The vasculine treatment is reliable and can be prepared at little cost by dissolving 1/2 cupfuls sugar in 1 pint water and then adding 1 ounce salol. Take 2 teaspoonfuls before each meal until development is where you want it, then discontinue or over-development may follow.

Mrs. T. C.: No one can afford to neglect his or her eyes, although most people do. If you want bright, clear, beautiful eyes that will be much admired, you can have them with very little care. Get an ounce of crystals at any drug store and dissolve it in a pint of water. Put two or three drops of this tonic in each eye daily and you will be surprised how it will strengthen your weak, tired eyes and make them strong, healthy and sparkling. Many oculists who use this simple tonic get excellent results in treating eye troubles generally. It is very soothing and has enabled many to dispense with wearing glasses.

Alma: Your scalp needs a good, stimulating quinine hair-tonic to remove the dandruff, stop irritation and falling hair. Get from any drug store one-half pint alcohol (not whisky) and one ounce quinine and mix it with one-half pint water and you will have a much better tonic than any of those ready-prepared tonics you have been buying. Brush your hair daily, and twice a week apply this tonic to the scalp, rubbing it in gently. This will do wonders for your dull, lifeless, falling hair, and put your scalp in a healthy condition. This tonic will make your hair soft, silky and lustrous. Keep the scalp clean by frequent shampooing with catnip and you will not have further trouble with your hair.

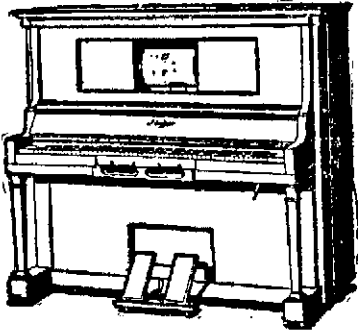

UGH! NOT CALOMEL, OIL OR SALTS, BUT DELICIOUS "SYRUP OF FIGS"

Give your stomach, liver and 30 feet of bowels a thorough cleansing without gripe or nausea. Ends headache, biliousness, indigestion and constipation.

This wonderful fruit laxative acts as a liver and bowel cleanser—tonic—not as an irritant. Its action is natural and gentle—not gripping. It is delicious—no dreading. It is positive and prompt—no waiting.

If your stomach is sour and filled with vile gases, your head aches, or you are bilious, nervous, dizzy, half sick, your tongue coated, your thirty feet of bowels clogged with waste not properly carried off—don't wait. Sure! Take a teaspoonful of delicious Syrup of Figs tonight, and in the morning all constipated waste, sour bile, gases and poisons will move on and out of the system, gently but thoroughly—no gripping!—no nausea—no weakness. In the old days people let these matters run until they needed a large dose of physic, then they took something severe like castor oil, salts or cathartics, that meant abuse to the bowels. These are the days of the gentle and natural—the days of Syrup of Figs. This way you are not dragging yourself. Syrup of Figs being composed entirely of luscious figs, senna and aromatics can not cause injury.

Ask your druggist for "Syrup of Figs and Elixir of Senna," and look for the name, California Fig Syrup Company on the label. This is the genuine—old reliable. Any other so-called Fig Syrup is an imitation often meant to deceive you. Refuse such with confidence—no nausea—no weakness. In the old days people let these matters run until they needed a large dose of physic, then they took something severe like castor oil, salts or cathartics, that meant abuse to the bowels. These are the days of the gentle and natural—the days of Syrup of Figs. This way you are not dragging yourself. Syrup of Figs being composed entirely of luscious figs, senna and aromatics can not cause injury.

Annual Factory Clearance Sale

We never had so many fine new pianos to offer at little prices. Think of buying a new Packard for less than some stores ask for used pianos of unknown make. When you consider tone, durability and reputation the Packard is always selected, and now the price shuts out all competition.

BABY CENTRAL FIGURE IN AN INTERNATIONAL ROW.

LIEUT. CHAS. SLINGSBY, HIS WIFE AND THE BABY.

San Francisco, Jan. 28.—That truth is stranger than fiction was demonstrated again recently by birth certificate No. 4433, on file at the California state board of health. About this remarkable record is woven the story of the Slingsby changing baby case which involves the history of two years' investigation into the charges that the child of a Geyersville high school girl was substituted for the heir to the million-dollar estate of the late Rev. Chas. Slingsby, of Yorkshire, England.

Here is the story:
Lieut. Chas. Slingsby, of the British navy, elder son of Rev. Chas. Slingsby, was estranged from his family for marrying an American girl. According to British law, the estate of a father goes to the eldest son, and in case of the son's death, the estate becomes the property of the second son, providing the first son is not the father of a boy, in which case the estate goes to this child, cutting off the brothers completely.

In 1910 Lieut. Chas. Slingsby fell heir to his father's estate.

The investigation that has been in progress for the last two years has been instituted by members of the Slingsby family in England for the purpose of proving, if possible, that the alleged son of Mrs. Lieut. Slingsby was adopted and a changeling and not entitled to share in the Slingsby wealth.

The investigators maintain that the baby is the son of Lillian Anderson, of Geyersville, Cal., and was obtained by a newspaper advertisement which was answered by Dr. W. W. Frazier, of Waverlyville, Cal., who altered the birth certificate of the child so it would read as being that of Mrs. Slingsby.

Lieut. Slingsby and his wife maintain that all this commotion is a conspiracy for the purpose of discrediting their baby so the Slingsbys in England can get possession of the property to which this son is justly entitled.

As the case stands now, it is open to two interpretations. The only person who has actually become involved in the intricacies of the law up to date is Dr. Frazier. He is under arrest for altering a birth certificate, and there the matter rests.

LABORERS GET \$10,000 EACH.

Two Michigan City Men Beneficiaries in New York Aunt's Will.

Michigan City, Ind., Jan. 28.—George and Edward Hermann, sons of Mrs. Amelia Humble, laborers employed at one of the factories here, have received notice of the probating of the will of their aunt, Mrs. Magdalena Hermann, who died Jan. 3, at her home in New York city. The two nephews here got \$10,000 each out of their aunt's estate. George Hermann, accompanied by an attorney, went to New York to claim his and his brother's share.

This Will Stop Your Cough in a Hurry

Save 5¢ by Making This Cough Syrup at Home.

This recipe makes a pint of better cough syrup than you could buy ready made for \$2.50. A few doses usually conquer the most obstinate cough—stops even whooping cough quickly. Simple as it is, no better remedy can be had at any price.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. It has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. Has a good tonic effect, braces up the appetite, and is slightly laxative, too, which is helpful. A handy remedy for soreness, croup, bronchitis, asthma and all throat and lung troubles.

The effect of pine on the membranes is well known. Pinex is the most valuable concentrated compound of Norwegian white pine extract, and is rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

This Pinex and Sugar Syrup recipe has attained great popularity throughout the United States and Canada. It has often been imitated, though never successfully. A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

BEAR GRASS FOR MANUFACTURING

Converted from Ranch Grass Into High-Grade Paper.

IT IS NEW RESOURCE

Farwell Tex., Jan. 28.—It was about two years ago that a large paper manufacturing concern in St. Louis, Mo., began experimenting with bear grass as a possible raw material for making high grade paper. It was found that this fibrous plant was specially adapted for that purpose and as a result of the discovery a large demand for the product has been created. While up to this time only two or three paper mills are using bear grass for paper-making other manufacturers are investigating the plant and it is expected they will soon enter the list of its users.

Bear grass grows in profusion upon several millions of acres of wild ranch land in Western Texas and New Mexico. It is another one of those semi-desert species of vegetation that was formerly considered not only of no value, but as a real nuisance, as it interfered with the growing of nutritive grasses for cattle. In appearance bear grass resembles one form of cactus plant that grows in a wide scope of territory in the southwest. The leaves of bear grass are too coarse and fibrous for livestock and even where they are sometimes eaten in droughty seasons by cattle they are of no food value. It grows in bunch form and sometimes reaches a height of three or four feet. Large areas of the open plains country in this section are capable of yielding one-half to one ton per acre of the produce. The paper manufacturers have been paying \$12 to \$15 per ton for it.

During the last few weeks there have been shipped from Portales, New Mex-

ico, more than 75 carloads of bear grass, the aggregate sum, above the freight, received for these shipments being more than \$7,000. In that section of New Mexico large forces of men have been engaged for some time in cutting the plants and hauling the product to Portales for shipment.

There is some talk of a paper mill being established at some point in the bear grass growing territory, the special purpose being to utilize that product on a very large scale in the manufacture of paper.

The fact that the plant is of rapid growth and reproduces itself within a year after being cut off at the roots, solves the question of propagation. It is claimed that if the demand for the raw product increases to the point where the gathering of the grass can be carried on all through the large scope of territory where it grows wild it can be made to bring in an enormous revenue without disturbing the cattle raising industry. The discovery that this wild species of vegetation is of commercial value adds one more plant to the list of this character of semi-desert growth which have been found to be a source of profit during the last few years.

An enormous amount of revenue has been derived from the converting of the caoutchouc properties of the wild guayule shrub into rubber. This rubber-producing plant grows all through the

upper border region, it being grown in larger quantities upon many millions of acres of land not only in Texas, but in northern Mexico. In Mexico, where the guayule rubber industry has assumed great importance during the last few years, the investments in lands and factories aggregate more than \$60,000,000 gold.

One of the most profuse wild vegetation growths in western Texas is the sotol plant. It produces a large bulb which rises to the surface of the ground and is easily dug out. The bulb of the sotol plant contains an enormous percentage of juice from which alcohol is made. A few years ago, when much interest was being taken in the manufacture of denatured alcohol, the possibilities of sotol for that purpose was believed to be very great. Several denatured alcohol distilleries were established in western Texas and considerable quantities of the fuel manufactured. Owing to the fact, however, that it was found that denatured alcohol could not compete in price with gasoline as a fuel, the promised sotol industry was abandoned.

MENTHO-LAXENE HAS NO EQUAL

As a Cold, Cough and Catarrh Remedy—Made at Home Easily, Quickly—A Full Pint, That Lasts Through the Season.

Cheaper Than Ready-Made Medicine—Purer and Guaranteed More Effective Than Anything Ever Heard Of—Try It.

People who've "barrels of money" probably won't appreciate this advice. This is for the reader who knows the value of every five-cent piece, and usually it saves from 40 to 100 five-cent pieces for those who are informed. Buying medicine in driblets costs more than making a big supply yourself. Buying ordinary patent medicines means that you pay too much for syrups, cokes, bottles, labels, cartons, etc. For instance, if you buy a 25-cent bottle of cough medicine, it contains about two ounces, four-fifths of which is syrup—and for 25 cents you can make one-half gallon of syrup.

By making Mentho-Laxene medicine at home you save lots of money on syrup alone and besides you know it's pure and quickly effective. Let us prove then that the best and cheapest way to cure coughs, colds, catarrh and to prevent pneumonia, diphtheria, la grippe, is to make this fine big supply of medicine by mixing one-half pint of boiling water with a pint of granulated sugar. Then, buy the pure concentrated essence Mentho-Laxene (2 1/2 oz. bottle) empty it into a pint bottle or jar and fill it up with the syrup. Directions with each bottle tell how to make and take, while the manufacturers guarantee to refund money to any dissatisfied purchaser. You run no risk and will have on hand a medicine which has never been equalled for colds, coughs, bronchitis, catarrh, hoarseness, etc. Its tonic laxative action puts the entire system on a healthy basis and chronic disease and consumption are avoided.—Adv.

SHOP AND RAILROAD NEWS

FIRST OFFICIAL TRIP OVER LINE

General Manager McKeen and General Supt. Whiter to Inspect Road.

SPEND WEDNESDAY NIGHT IN CITY

Wabash Brakeman Loses Life in Rear End Collision at Defiance.

General Manager Benjamin McKeen and Superintendent E. T. Whiter, of the Pennsylvania, will make their first visit to Fort Wayne in their present official capacities tomorrow. Their special train will follow No. 19 closely, arriving in this city about 5 o'clock in the afternoon. The officials will spend the night in the city and leave Thursday morning by special train for Chicago. Their object is to make an inspection of the company's property in this city and elsewhere on the Pittsburgh, Fort Wayne and Chicago branch of the system and to personally meet the men who have charge of the various departments. Some of the division officials will accompany Mr. McKeen and Mr. Whiter over this end of the line.

BRAKEMAN KILLED AT DEFIANCE

J. C. Allen Victim of Rear End Collision Accident.

J. C. Allen, a Wabash brakeman residing in Toledo, lost his life in a collision accident 200 feet east of the Maumee river bridge at Defiance at 9:15 o'clock this morning. He was a member of a switch run crew, No. 71, west-bound, which was following through freight train No. 63. When the latter stopped for some reason the engine of the switch train crashed into the caboose of the through freight, and just before the collision, Allen jumped, slipped and was thrown under the cars in such manner that the wheels passed over him and cut off both his legs just below the hips. He lived only a few minutes after the accident. Mr. Allen was married and had been in the employ of the company but a year. He ran in and out of Fort Wayne. In the collision engine 350 was derailed and badly damaged and the caboose and three or four cars of the through train were pretty well demolished. The tracks were blocked several hours.

INJURED ON WAY TO WORK.

Joseph Worden Struck by Engine Near the Coal Docks.

Soon after leaving his home, at 1313 Horace street, last night and starting for the Pennsylvania round house, where he is employed in the night trick as a pipefitter, Joseph Worden was struck by one of the company's switch engines as he neared the coal docks and was severely injured. He was knocked down and when witnesses reached his side he was unconscious. He was taken to the St. Joseph hospital in the ambulance, where an examination of his wounds showed that they consisted of two ugly gashes in the forehead, one above the right eye and the other at the nose and so near the eye that it is feared the sight will be affected; several minor cuts and innumerable bruises on the face, head and neck. His condition, however, is not regarded as dangerous. Worden is thirty-eight years old and unmarried.

ELECTRICIAN HURT.

Chester Stovel Caught Between Engine Tender and Box.

Chester Stovel, electrician at the Wabash shops, was squeezed between an engine tender and a box in the Wabash round house at 7:30 o'clock this morning. He was bruised and sprained about the hip and will be unable to walk for a few days, though it is not thought any bones were broken. Stovel was putting up some electrical apparatus when the accident happened.

GETTING NEW CABOOSSES.

Trainmaster E. S. Kirby, of the Nickel Plate, has received three of the

A GOOD BREAKFAST.

Some Persons Never Know What It Means.

"A good breakfast, a good appetite and good digestion mean everything to the man, woman or child who has anything to do, and wants to get a good start toward doing it."

A southern man tells of his wife's "good breakfast" and also supper, made out of Grape-Nuts and cream. He says:

"I should like to tell you how much good Grape-Nuts has done my wife. After being in poor health for the last 18 years, during part of the time scarcely anything would stay on her stomach long enough to nourish her, finally at the suggestion of a friend she tried Grape-Nuts."

"Now, after about four weeks on this delicious and nutritious food, she has picked up most wonderfully and seems as well as anyone can be."

"Every morning she makes a good breakfast on Grape-Nuts eaten just as it comes from the package with cream or milk added; and then again the same at supper, and the change in her is wonderful."

"We can't speak too highly of Grape-Nuts as a food after our remarkable experience." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Well-being," in packages. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

live cabooses assigned him some weeks ago and they immediately went into service. The company is having ten cabooses for the Western division built at the Stony Island shops, and there has been a need for them several months, but delay in getting the supplies kept them back. As a result in the shortage of cabooses, the trainmen have been "double heading" on them, which necessitates the removal of all their personal effects at the end of each trip, for the next time out may be in another caboose. This is very unsatisfactory.

WANTS SCHOOL CHILDREN WARNED.

Government statistics showing that 3,102 trespassers were killed or injured on the railways of the United States during the first ten years of the twentieth century, from 1901 to 1910, have been printed in connection with a circular letter to school teachers and a copy placed in the hands of all the teachers in the towns and cities touched by the St. Louis and San Francisco road. The circular was issued by order of the manager of the St. Louis and San Francisco and the teachers are urged to read the statistics to the children with such comments as they may see fit to make, and if possible, post the letter in a conspicuous place. It is further suggested, in order to impress upon the children the injury done to the communities as well as the individual victims and their families and the importance and value of the exercise of care, that the children be requested to write essays upon "Safety First" and particularly upon the dangers of trespassing upon railroad property, either by walking on the track, playing in the yards or riding moving trains.

HENRY LEPPER IN HOSPITAL.

Henry C. Lepper was operated upon for appendicitis at the Lutheran hospital by Dr. Rosenthal at 6 o'clock last evening and this afternoon was reported in a very encouraging condition, with promise of speedy recovery. Mr. Lepper is the foreman of the blacksmith department of the Fort Wayne Electric works. He just recently moved his family to new quarters at Fulton and Lavinia streets.

SHOWMAN BECOMES SHOPMAN.

L. E. Falger, who was in vaudeville show business in the east five or six years, is now a helper in the Pennsylvania boiler shop, taking up that work this morning. He is out of the vaudeville business for good, though it is said he was successful at it for a while.

INHERITED A FORTUNE.

The Bluffton Banner publishes a story concerning an alleged fortune left William L. Shumaker, night yard clerk of the Wabash in this city. The fortune is said to approximate \$50,000 and it is the result of a kind act to an aged woman in Minneapolis a year or two ago.

MOVED TO NAPOLEON.

Yesterday Mr. and Mrs. C. D. Porter bade farewell to Fort Wayne friends and went to Napoleon, which city will be their home so long as Mr. Porter holds his present office with the Wabash. He is freight agent at that point. They shipped their household goods to that city yesterday and will soon have a cozy home fitted up.

INDUSTRIAL NOTES.

Machinist J. H. Franke, of the Wabash shops, is in Chicago visiting his brother, who is sick.

Henry C. Dasher, assistant general foreman of the power department at the Pennsylvania shops, is sick and off duty.

E. Hess, helper in the Pennsylvania machine shop, had the great toe of one of his feet contused yesterday by getting it beneath a falling piece of iron. H. Zulliger, a blacksmith at the Pennsylvania shops, is off duty on account of the illness of a member of his family.

H. W. Bente, of the Pennsylvania shops, had the nail of the right thumb torn loose and the digit badly bruised yesterday and is off duty for a few days.

I. Bott, the well known Pennsylvania blacksmith, is quite sick, being bedfast most of the time. He was taken ill last fall and has not been able to work since November 26.

W. F. Goers, a Pennsylvania car repairman, had the bone of the little finger of his right hand broken while at work in the east car shops. He will be off duty a few days.

Material Engineer Howard Miller and Mica Shop Foreman F. G. Fleming, of the Fort Wayne Electric works, have returned from a business trip to Lynn, Mass., and Schenectady, N. Y.

C. F. Sern, a baker, who took employment at the Pennsylvania shops as a helper when he could not find work in a bake shop, resigned this morning to return to his trade.

E. E. Horber and E. H. W. Hambrick, car builders, and A. C. Stemler, machine operator in the planing mills, resumed work at the Pennsylvania shops this morning, after an absence on account of sickness.

Sickness in his family is keeping Homer Bell from his work in the shipping department at the Electric works. Henry Brueggemann, of the shipping department office, is sick and off duty.

Machinist John Luley, for several years employed at the Kerr Murray works, took a position with Master Mechanic J. J. Muir at the Bass machine shop this morning.

S. F. Bowser & Co., who will have a display at the convention of the Master Mechanics and Master Car Builders' Association, next June, have been advised that assignments of space for exhibit purposes will be made February 14.

Pipefitters James W. Loney and J. P. O'Reilly have returned from Delray, Mich., where they were engaged several days on work connected with the installation of a steam heating plant in the Wabash round house.

Machinist F. O. Shookman, of the Pennsylvania erecting shop, got the fourth finger of his left hand beneath a piece of iron he was landing this morning and the digit was painfully cut and bruised, though the bones were not broken.

Boilermaker H. Wiesner took employment at the Pennsylvania boiler

Ex-President of Steel Trust Unburdening His Soul Before Pujio Committee.

(By PAUL THOMPSON)

William E. Corey astonished the country last week by his frank revelation of steel trust secrets, and incidentally got even with some of the men who forced him out of his job. The camera caught him in the witness chair, in a typical pose.

ASKED BOARD TO START ON PUMPS

Lakeside and Forest Park Residents Ready to Pay the Costs.

MADE GREAT REPORT

Members of the Lakeside and Forest Park Improvement association endorsed at their meeting last night a resolution asking the board of public works to proceed at once with the preliminary steps toward establishing pumping stations to take care of the storm water in the sewers in the district in times of floods. The board can proceed on the strength of this resolution.

John N. Pfeiffer, J. S. Peddicord, Fred Heine, C. E. Thomas and Perry Randall, members of the committee who were appointed to make investigations, submitted a report last night which was received with a vote of most hearty thanks for the exhaustive manner in which they had gone into the matter.

The probable cost is placed at \$2,000 to \$2,500 after a credit has been taken off the original figures for \$2,500 which the Indiana school proposes to pay for draining the institution into the sewer system. The station will consist of automatic pumping machinery, a basin at the mouth of the Forest Park sewer to be obtained by the purchase of three low lots there and a drain for the overflow from the Lakeside sewer into the proposed basin.

It is proposed to assess every lot in the two additions an equal amount for this improvement as each of them will be equally benefited and the hundred members there last night bound themselves to stand for the cost of the improvement.

It was requested that Della Lake be drained now so that in event of another flood no damage will be done as a storage basin will be supplied for the storm water.

The assessment for the curbing on Edgewater avenue was up for discussion after T. J. Logan explained that most of the property owners on Columbia avenue, including himself, had failed to see the notice of the assessment at the time the park board adopted the resolution and that they now have no recourse except the civil courts.

None of the residents object to the assessments, but they think that the entire district should have borne the burden instead of three tiers of lots immediately adjoining the park. Col. D. X. Foster explained that it is proposed to place playground apparatus in the park on Edgewater avenue and to provide a play place for the children in the immediate vicinity and he thought the property most benefited ought to be assessed.

The association took no action other than to hear the complaints and the explanations and if the owners of assessed property want to go any further in the matter they will take it up among themselves and appeal to the circuit court. This is not likely, however, as the amounts involved are small.

FOR SALE—Rough lumber suitable for sheds, walks, fences, etc. Hoffman Bros. Co. 28-eod-61

Our out-of-town friends should remember that all roads lead to Foster's. Better Furniture and Carpets, and more of them, for any given sum of money, can be had there than anywhere else.

NEW OPEN. The new Gem theater, at 1404 Calhoun street, is now open and is getting big crowds. They have installed a new \$1,500 orchestra piano and have the following special film for today:

His Old Fashioned Mother, (drama); The Walnut Industry (educational); Wanted, a Husband, (comedy); The Devil of a Time, (comedy).

FOR SALE—Rough lumber suitable for sheds, walks, fences, etc. Hoffman Bros. Co. 28-eod-61

MAYOR SHANK IS AGAIN ARRESTED

New Case Grows Out of His Crusade Against "Speeders."

OTHER STATE NEWS

Indianapolis, Ind., Jan. 28.—Mayor Lew Shank was arrested last night on a warrant charging that he had defaced the public highway of Lawrence township by driving a heavily laden automobile over it. The mayor's chauffeur, Herbert S. Newby, also was arrested and a warrant was issued for Sergeant of Police Joseph Steinruck.

John Bolander, superintendent of the township, swore to the affidavits, which were filed in the court of Justice of the Peace Teal, where last week Mr. Shank was cleared of a charge of speeding that resulted from his crusade against "speeders." It was in going to his trial that the mayor is alleged to have torn up the roadway. The mayor's trial was set for February 3.

WAR TOO PERILOUS.

But Gary Lad Who Remained at Home is Killed in Mill.

Gary, Ind., Jan. 28.—Believing that war was too perilous an occupation for his 17 year old son, Milan Toongogon, Thomas Nicklewich refused to allow the boy to accompany himself and two sons to Montenegro, where they went three months ago to fight the Turks. Yesterday afternoon young Milan was instantly killed while at work at the Gary works of the Illinois Steel company. He was the sole support of his mother while the others were at war. The company will provide for the mother.

FREE DRINKING CUPS.

Indianapolis, Ind., Jan. 28.—Free drinking cups will be given patrons of the Union Traction company after February 15, it was announced by officials of the company here today. At present passengers must buy paper cups when wishing a drink.

WIFE'S DEATH FOLLOWS.

Crawfordsville, Ind., Jan. 28.—A few hours after Joshua McCloud, 75 years old, died from an attack of la grippe yesterday, his wife, Elizabeth, 73 years old, died from the same cause. They had been married fifty years.

FIND BODY IN DITCH.

Knightstown, Ind., Jan. 28.—The body of Grosham Porter, fifty, missing since January 14, was found partially buried in a ditch west of here. One foot protruding above a pile of driftwood led to the body being found.

TO KEEP BOYS ON FARM.

Columbus, Ind., Jan. 28.—Farmers and their wives from Bartholomew, Jennings and Decatur counties last night held a meeting at Granmar and formed an organization, the object of which is to keep boys and girls, especially on the farms. The farmers complain that too many of the brightest boys leave the farms to cast their lot in the cities and it is planned to make farm life so pleasant and profitable that the boys will not wish to leave.

Laxative Bromo Quinine
Cures a Cold in One Day, Grip in 2 Days

THE MARKETS

THE LOCAL MARKETS.

But Few Changes in Prices and Situation Very Quiet.

The market situation was extraordinary quiet Tuesday, the result of the snowstorm, and a tendency toward an advance in prices, particularly on country products. The changes, however, were very slight. The market has shown but few changes for the last week and has been uneventful in its features. The pleasant weather prevailing until today has brought to the city many loads of corn and oats, and this has brought prices down, especially on hay. Eggs and butter made a slight advance today, but renewed pleasant weather is expected to bring a decline.

LOCAL MARKETS.

WOLF & WIDESSAUER

Introducing to Particular Housekeepers the New Hygienic Sheets and Pillow Cases

Hygiene is such a mighty factor in present day living, that one of the great Cotton mills is manufacturing sheets and pillow cases by a new and wonderful process, that renders them absolutely germ proof.

These new sheets and pillow cases are made from pure Sea Island cotton, sterilized and laundered ready for use. They have all the appearance of linen, and are soft to the touch. Each pair of sheets and cases is packed in sealed, air-tight packages. We are pleased to announce that these Hygienic sheets and pillow cases are sold exclusively here, and to introduce them have marked the first shipment at Clearance Sale Prices.

HYGIENIC SHEETS—

Size 63x90, reg. \$1.80 values... \$1.58 pr.
Size 72x90, reg. \$2.00 values... \$1.78 pr.
Size 81x90, reg. \$2.20 values... \$1.96 pr.
Size 81x99, reg. \$2.40 values... \$2.16 pr.

HYGIENIC PILLOW CASES—

Size 42x36, reg. 16c values... 39c pr.
Size 42x38 1/2, reg. 50c values... 43c pr.
Size 45x36, reg. 50c values... 43c pr.
Size 45x38 1/2, reg. 56c values... 49c pr.

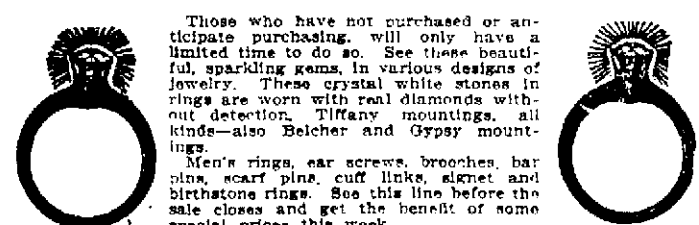

Instruction in Art Needlework

Tattooing, crocheting and macramé work are three lost arts that are being revived. They are all taught by Mrs. Wilson, whose little department is an auxiliary to our Art Goods Section.

These three things are not the only ones Mrs. Wilson teaches, however. All the new embroidery stitches, the latest ideas in guest towels, and many other things of interest to women who do needlework, can be learned here, free of charge.

SPECIAL NOTICE

Golconda Diamond Demonstration Will Soon Close

Those who have not purchased or anticipated purchasing will only have a limited time to do so. See these beautiful, sparkling gems in various designs of jewelry. These crystal white stones in rings are set with real diamonds without detection. Tiffany mountings, all kinds—also Belcher and Gypsy mountings.

Men's rings, ear studs, brooches, bar pins, scarf pins, cuff links, and other goods. See this line before the sale closes and get the benefit of some special prices this week.

1.50 Rings... 1.25 Ear Studs... 75c 1.00 Brooches... 75c
2.00 Rings... 1.75 Ear Studs... 1.25 1.50 Brooches... 1.25
3.00 Rings... 2.50 Ear Studs... 1.50 2.00 Brooches... 1.50

ADDITIONAL SPORTS

(Continued from Page 8.)

Coming in a Special Car.
Manager Otto W. Pohlmeier, of the Friar basketball squad, was notified today that the Wabash A. A. club will come to Fort Wayne tomorrow night in a special car and will bring along a lot of routers.

Bowlers to Leave March 2.
Bowlers of the city decided at a meeting held last night to leave for the tournament at Toledo on Sunday, March 2, at 9:30 o'clock. A limited car will be used in making the trip.

NOTES OF THE COURTS.

Tilbury Must Explain.
In the superior court a citation has been filed requiring Charles Tilbury to explain why he has not paid for the support of his children as ordered in a divorce suit instituted by Mary Tilbury. She alleges that he was ordered to pay in December \$25 attorney fees and \$5 a week and that he has failed although he has been steadily employed since.

The attitude taken by Judge Yaple in cases of this kind requires some mighty good excuses to prevent jail sentences as he will not permit any dallying with orders of this kind.

Pulliam Won Suit.
Judge O. N. Heaton entered in the superior court today an order instructing the jury to return a verdict in favor of Dr. J. Matthew Pulliam in a suit on a note instituted by Joe W. Bell. The note was given for a payment on an automobile.

Yesterday Attorney Guy Oberick asked the dismissal because Bell had failed to prove title to the automobile and today this motion was sustained. About \$200 was involved.

The same jury that returned the verdict was sent to the circuit court room to hear the superior court case of Anna Mendelsohn against Julia Fay Randall on a suit conversion involving household goods valued at \$400.

Asks \$2,000 for Assault.
Alice Mousenest has filed a suit in the superior court in which she seeks to recover \$2,000 from William Badda. She alleges he assaulted her and made her so nervous she couldn't attend to her household duties. P. B. Colerick is her attorney.

Five Days Are Granted.
In the superior court the motion to dismiss the suit brought by Ralph C. Clark against Frank Poisson was overruled and five days were given in which to file the consent of Harry Waggoner to act as next friend. This was omitted in filing the complaint.

Cases Are Dismissed.
Cases have been dismissed in superior court as follows: Adam Cappel against Julius Kaminsky; Lucy C. Hosteder against Oliver D. Hosteder; Charles O. Lathouse against Joseph E. Gage; Bessie Reed against Alva Reed; Ellen Mahrt against Conrad Honeck; Ed M. Shell against Asa M. Tyler and Peter Stenger against Ambrose W. Kintz.

COL. NELSON IS CITED.

Kansas City Star Editor in Peril of Contempt of Court.

Kansas City, Mo., Jan. 28.—William R. Nelson, editor and owner of the Kansas City Star, was cited today by the circuit court of Jackson county, Mo., to show cause why he should not be adjudged in contempt of court following the publication in his paper of an article in which it was stated that three attorneys were awarded a fee of \$50 each in a suit for divorce which was dismissed in the circuit court. The article stated that the fee was granted in accordance with a ruling by Judge Guthrie of that court.

The Star recently has printed numerous articles charging delays of justice in the courts and pointing to alleged improper acts by attorneys and criticizing court procedure.

"I welcome this action and the bringing the matter to an issue," was Mr. Nelson's comment as he accepted service.

OPPOSES ALDRICH PLAN.

Farmers Declare War Before Currency Reform Committee.
Washington, Jan. 28.—Farmers' opposition to the national monetary commission's plan was voiced today by W. T. Cressy, master of the Pennsylvania state grange, before the house currency reform committee. Mr. Cressy told the committee that Pennsylvania farmers and he believed farmers generally, were "bitterly opposed to the Aldrich scheme."

"We believe," he said, "that the big financiers are much more interested in gaining control of the currency for themselves than they are in any effort to secure its elasticity."

CASE MAY NEVER BE TRIED.

New York, Jan. 28.—Supporters of General Daniel F. Sickles, arrested and released under bail yesterday in connection with a \$23,000 shortage in funds of the state monuments commission, said today that in their opinion the case would never be tried. So many offers of contributions to make up the deficit have already been received, they said, that they believe the shortage will be wiped out by popular subscription. The general remains secluded in his Fifth avenue home.

POOL ROOM BILL UP.

Amendment to Permit Minors to Play Is Defeated.
Indianapolis, Jan. 28.—After a wordy battle over an amendment which would permit minors to play pool in pool rooms in Y. M. C. A.'s to be held without a license was favored by the house at its second reading this afternoon.

Representative Sales, when the bill was brought up, asked that it be amended to permit minors to play pool in pool rooms not connected with a Y. M. C. A. Representative Beatty spoke against the amendment, declaring he was opposed to permitting any boy "to be in a room filled with cigarette smoke, tobacco juice and profanity." He declared that the amendment of the pool rooms worked for the downfall of boys. The amendment was lost by a large vote.

HOUSE PASSES BIG BILL.

Washington, Jan. 28.—After days of spirited debate in house, today passed the river and harbor appropriation bill carrying \$400,000,000 without an important amendment.

WANTED—By expert accountant, books to audit and systematize. Address P. O. Box 180.

NEW JEFFERSON TO OPEN FEB. 8

Will Be the Handsomest Picture Theater in State.

MANY FINE FEATURES

The New Jefferson theater, near the northwest corner of Jefferson and Calhoun street, on West Jefferson, will be thrown open to the public on Saturday, Feb. 8. The building is nearing completion and the furnishings will be put in within a short time.

When the new picture house is open Fort Wayne will have the distinction of possessing the largest and handsomest picture theater in the state. It will seat 1,150 people and the accommodations to be offered will be equal to the high class theaters of the larger cities. A ladies' waiting room has been provided in the southeast corner and a maid is to be employed to look after the feminine needs.

The ventilating system will be complete in every particular. This problem is one with which theater owners are constantly fighting and is the cause of unlimited annoyance. The management of the Jefferson theater has solved the problem in such an acceptable way that it will be possible to obtain a complete change of air every three minutes.

Decorations for the front of the building have arrived and the ornamental plaster work is being put up. The front will contain 637 tungsten lights, together with four 3,000-candle power flaming arc lamps—a total candle power of nearly 42,000. Such scintillating displays are rarely seen outside of New York and Chicago. Inside the lighting system will be known as the indirect system and will be so bright that the print may be read in any part of the house.

Exits are numerous, as there are four six-foot doors along the west side and two at the rear of the building, in addition to the two large entrance doors. It will be possible to empty the house in about two minutes.

Nothing but the high class pictures and entertainers will be engaged for the new theater, which will be under the direct management of Sprague Green.

THE DEATHS

FUNERAL NOTICES.

Hergenroether.—Funeral services for Mathias Hergenroether, Wednesday morning at 9:30 o'clock from the residence, 1414 Maumee avenue, and at 10 o'clock from St. Andrew's Catholic church. Interment at the Catholic cemetery.

Kochler.—Funeral services for Frederick Kochler, Wednesday afternoon at 2 o'clock from the residence of Mrs. Philip Fremont, 3637 South Lafayette street. Interment at St. John's Lutheran cemetery.

Emrick.—The remains of A. J. Emrick, a former Fort Wayne resident who died at Brooklyn, N. Y., reached the city at 10:05 this morning over the Pennsylvania and were removed at once to Lindenwood, where funeral services were conducted by Rev. Dr. D. W. Moffat.

Smith.—Funeral services for Elmore Smith, Wednesday afternoon at 2 o'clock from the residence, 1209 Barr street, Rev. C. L. Bauer, of Auburn, officiating.

Kline.—Funeral services for Miss Matilda Kline, Wednesday afternoon at 2:30 o'clock from the residence, 424 East Wayne street. Interment will be private.

Bell-bearers have been selected as follows: Urban Hoffman, Frank Randall, William Becker, Willis Hatterley, Charles Pfeiffer and William Bostick.

TOO EARLY FOR ALARM.

Though Soldiers' Monument May Be Imposing Ruin in Time.
Indianapolis, Ind., Jan. 28.—Indiana's soldiers' and sailors' monument, the "highest soldiers' monument in the world," has begun to disintegrate and some day may tumble down and become a ruin as grand as any to be found in Europe. Edward Barrett, state geologist, who has just completed an exhaustive report on the monument, however, declared the shaft will stand for many ages yet.

Mr. Barrett says in his report that a crack or two have been found in the structure and that the smoke and atmosphere acids of the city will in time cause the stone to crumble.

"With reference to coating the monument with a preparation to prevent disintegration," Mr. Barrett states in his report, "I will say that I think such a step unnecessary at this time and for this generation."

FIGHTING NEAR JOLO.

Manila, Jan. 28.—Further sharp fighting between the American troops and the Moros was reported this morning as the result of an engagement near the city of Jolo, the American troops lost one man killed and six wounded.

A large force of bolomen made a sudden onslaught and succeeded in rushing two troops of United States cavalry and a detachment of Philippine constabulary. After a severe fight the Moros were beaten off, it is believed, with heavy loss, but the number of their casualties has not yet been ascertained.

THE BIRTH RECORD.

Born to Mr. and Mrs. James A. Foster, of 927 Columbia avenue, a daughter.
Born to Mr. and Mrs. Stanislaw Wolska, of 1013 Hayden street, a son.
Born to Mr. and Mrs. Guy Tentadue, of 317 Melita street, a son.
Born to Mr. and Mrs. Warren A. Williams, a son.
Born to Mr. and Mrs. Mark Walters, of 349 Melita street, a daughter.
Born to Mr. and Mrs. Harry K. Leathman, of 1912 Sinclair street, a daughter.

TILLMAN IS RE-ELECTED.

South Carolinian Is Sent to Senate for His Fourth Term.
Columbia, S. C., Jan. 28.—United States Senator Benjamin R. Tillman was elected today to succeed himself by the general assembly. This is his fourth consecutive term.

Summit lodge D. of H. No. 2, will give a pedro and penny social at Aldine building, on East Berry street, this evening. Everybody welcome.

ADDITIONAL SOCIETY

The Ancient Order of Hibernians will give a big ball in the Commercial club this evening. This is the annual affair of the society and a fine time is promised the members and their invited friends.

The Kekionga Aid society will be entertained on Thursday afternoon at the home of Mrs. McCormick, 614 Greeley street, instead of at the home of Mrs. Van Meter as previously announced. Mrs. Van Meter and Mrs. Goodyear will assist the hostess.

A Country Party.

Mr. and Mrs. William Hunsche, residing on the Bluffton road, south of the city, entertained a number of guests at a 6 o'clock dinner on Sunday, at a family reunion. Mrs. K. Tielker assisted in serving the bountiful dinner. The guests present were Mr. and Mrs. G. Heber, Sr., Mr. and Mrs. H. Hunsche, Mr. and Mrs. C. F. Mollering, Mr. and Mrs. A. Reber, Jr., Mr. and Mrs. J. Neireiter, Mr. and Mrs. F. Gerke, Mrs. K. Tielker, Mr. and Mrs. Dewitt Golden, Mr. and Mrs. C. F. Frango, Mr. and Mrs. H. Hunsche, Jr., J. C. Westermann and sons, John and Luther, of Baltimore, Md., and Annie Hadden, Charles Hunsche, Elva, Luella, Herman and William Mollering, Herbert and Marion Gerke, Marian Frango. Games were played during the evening and prizes were won by Mrs. D. Golden, Mrs. Tielker, Mrs. H. Hunsche, Jr., J. C. Westermann Sr.

TO WIDEN STATE BOULEVARD.

President D. N. Foster and Secretary Charles Steiss, of the park commission, met with the trustees of the state school on State boulevard this afternoon to form preliminary plans for the acquisition of a strip of land in front of the institution for the widening of the boulevard. It is thought that the proposition will be brought before the proper state officials for confirmation. Marriott Price, engineer of the park department, has already begun the preliminary survey of the site of the proposed improvement and the plans were brought before the school trustees today by Mr. Foster and Mrs. Steiss. It may be necessary to introduce a bill in the legislature to acquire the strip needed.

TO KEEP COMPETITORS OUT

Alleged in Lease of Mill Ore Lands by Steel Corporation.

New York, Jan. 28.—Testimony adduced to support the contention of the government that the Hill ore lands were leased by the United States steel corporation to keep them from competitors, was given at today's hearings of the suit to dissolve the corporation.

P. H. Nelson, of Hibbing, Minn., an ore expert, told of the value and extent of the various ore bodies in the lease, which was cancelled by the corporation shortly before the filing of the present suit. The witness said that in 1902 he acquired a lease in the Mesaba range on which royalties were 29 cents a ton. The royalties paid by the steel corporation in 1907 were 85 cents a ton.

Mr. Nelson said that the high freight rates charged by the corporation over its ore carrying railroads hindered the development of independent mines.

Incubators

Next month is the time to commence to set your incubators in order to get the best of chickens. Have you looked over your machine to see if you need some repairs or are you going to buy a new one? We can supply you either way. We have nothing but the best in the market and every one absolutely guaranteed.

IN THE CHURCHES

METHODIST MEN

HELD BANQUET

Evening's Address delivered by Eloquent Chicago Pastor.

THE MUSIC MAKERS

The banquet and entertainment given Monday evening at the First M. E. church by the Men's Federated Brotherhood of the five Methodist Episcopal churches of the city, was an enjoyable affair and largely attended. There were 150 Methodist men seated around the tables when at 7 o'clock, with Rev. Dr. J. A. Beatty, the district superintendent, presiding, and Rev. J. K. Waltz, asking the divine blessing, the Ladies' Aid society of the first church began serving a menu which was an elegant one. Before and at the close of the banquet the music makers, of Chicago, a quartet of young men, rendered vocal selections. The banquet was given in the dining room of the church.

Following the banquet came the entertainment and lecture in the auditorium of the church, which began at 8 o'clock. Every seat was occupied, the rooms in the rear being thrown open and some people in the gallery. Many ladies were present. They, however, were not among the guests at the banquet.

For nearly an hour the Music Makers, of Chicago, entertained the audience with a program of song and selections on bells. Every number, solos, duets and quartets, was executed and the sweet singers compelled to respond. They are splendid singers and the audience was well pleased with the musical program given.

The address of the evening was delivered by Rev. C. B. Mitchell, the pastor of the St. James Methodist church, of Chicago, who was the guest of honor. His theme was "The Ways of Man," and it was eloquent and interesting. His central thought was that success is attained by setting high ideals as the standards to follow, striving to follow them and leading an upright life.

The affair was a most successful one in every way. The Methodist Brotherhood is increasing in membership and proving of great value in advancing the interests of the churches.

THE CALL TO SUNDAY.

Pastors' Committee to Go to Columbus to Meet Evangelist.

The principal matter of business transacted at the meeting of the Fort Wayne Ministerial association Monday afternoon at the First Baptist church was relative to the Rev. W. A. Sunday, evangelist, which it is planned to hold in this city. All the churches represented in the association are practically united on the matter of extending him a call and a committee of ministers will go to Columbus, Ohio, where he is now conducting meetings, to make personal extension of this call in a few days. This committee consists of Revs. D. H. Guild, A. K. Zartman, Edward Montgomery, C. C. Travis and C. H. Snashall.

The paper read at the meeting was on "The Churches and the Labor Union," which proved very interesting. The central thought was that the church ought to get in close touch with labor and its interests and work for material and spiritual advancement. This had been its aim in the past, but Rev. Mr. Travis argued that this relationship ought to be closer.

Address by Dr. McOscar.

The address to the Knights of Columbus at their last evening was delivered by Dr. E. J. McOscar, his theme being "Hawaii and Japan." He had

visited them during his recent tour

abroad and spoke from experience of their people, religion, government, etc., using interpretation views for illustration. The address was interesting and instructive, musical program was also given. On Thursday evening the council will hold a reception for the knights and ladies.

Third Presbyterian Church.

Tomorrow evening at 7:45 o'clock at the missionary service held at the Third Presbyterian church the speakers will be Rev. T. P. Potts and a native of Kurdistan. On Thursday evening there will be an evangelistic conference. The subject will be "Personal Evangelism," the discussion being led by the pastor. At the preparatory service on Friday evening Rev. H. R. Master will deliver the address.

Mary Beaver Circle.

The Mary Beaver circle of the Westminster Presbyterian church will meet Wednesday afternoon at the home of Miss Minnie Young, 604 Lawton place. All ladies of the west side are invited and they are requested to bring their thimbles.

Presbyterian Men's Banquet.

A banquet will be given by the men of the Third Presbyterian church at the church room this evening. The principal address will be by Theodore F. Thieme, on a business form of government for cities. A turkey supper will be served.

Give Progressive Pedro.

Under the auspices of the St. Vincent de Paul Aid society of the cathedral a progressive Pedro party will be given on the evening of Shrove Tuesday, February 4, in the assembly room of the library hall. Those attending will wear comic costumes.

Give Program Tonight.
